2019-2020
Educational Planning Guide

Where Learning is the Expectation
and Caring is the Commitment.

Citrus County Schools
Superintendent
Sandra "Sam" Himmel
CITRUS COUNTY SCHOOL BOARD
NON-DISCRIMINATION INFORMATION

1. No person shall, on the basis of race, color, religion, pregnancy, national or ethnic origin, gender/sex, age, disability, marital status, political beliefs, sexual orientation, or genetic information, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity, or in any employment conditions or practices conducted by the Citrus County School Board (CCSB), except as provided by law.

2. CCSB shall comply with all state and federal laws, which prohibit discrimination and are designed to protect the civil rights of applicants, employees, and/or students, or other persons protected by applicable law.

3. CCSB prohibits discrimination in the terms and conditions of employment, and in access to educational programs and activities, and prohibits harassment of any individual or group on the basis of race, color, religion, pregnancy, national or ethnic origin, gender/sex, age, disability, marital status, political beliefs, sexual orientation, or genetic information.

4. Lack of English language skills will not be a barrier to admission and participation. CCSB may assess each student’s ability to benefit from specific programs through placement tests and counseling, and if necessary, will provide services or referrals to better prepare students for successful participation.

5. CCSB will comply with all Federal requirements regarding discrimination and harassment including, but not limited to, 34C.F.R. Part 108

District Equity Contact:

Telephone: (352) 527-0090 • Fax: (352) 249-2145
Beginning 2018-2019 School Year, each High School began a traditional 7-period a day schedule. Students will earn one credit in a 36 week course, and 1/2 credit in an 18 week course. Course offering are contingent upon the number of course requests, so the courses currently listed may possibly change. The information contained in this guide is current as of December 2017. Policies and changes made by the Citrus County School Board and the Florida State Legislature will take precedence over any information contained herein. NOTE: School administration reserves the right to cancel any course when enrollment, funding, or availability of certified teachers is considered insufficient.

Dear Parents and Students:

Please take the opportunity to review the 2019-2020 Educational Planning Guide. This guide is a very important resource for parents and students. The guide can be used in selecting courses of study that will give students the greatest opportunities for future success in post-secondary educational programs and career choices. This guide provides the blueprints and tools for parents to assist their sons and daughters in designing an educational plan that will give clear direction and a solid foundation for all future educational and career choices.

The world of work is rapidly changing, as existing jobs require additional training and new jobs demand advanced skills and knowledge levels. Students must acquire advanced academic competencies and technical skills to be successful. Students also need to be effective problem solvers, productive workers, good communicators and cooperating team members. These skills and traits will allow students to experience success in a highly competitive global economy and contribute to our society as productive, responsible citizens.

Our school district provides high quality, progressive and comprehensive educational programs for Citrus County students. We value each individual student and believe they can achieve at the highest level of expectations for their interests and abilities. The keys to student success in our district are the outstanding teachers, school administrators and support staff serving the students in the Citrus County Schools. We are also fortunate to have well informed and involved parents, tremendous community support and outstanding resources.

It is the goal of the Citrus County School District to create an educational environment where all students are successful, individual differences are valued, lifelong learning is initiated and students are prepared for future educational and career opportunities. For students entering ninth grade in the 2018-2019 school year, there are several changes that impact the student as they complete their high school diploma. The Educational Planning Guide is an extremely valuable resource for parents and students to plan for meeting this goal.

Please take the opportunity to use the Educational Planning Guide to your full advantage in planning for and achieving the common goals valued by students, parents and the school district. We are very pleased that we can provide this outstanding resource for parents and students.

Sincerely,

Sandra “Sam” Himmel
Superintendent

This publication was produced to provide information on Citrus County Schools through a Perkins Grant.
Graduation Information

High School Graduation Programs Overview
If you are the parent of a Florida middle or high school student, this section is for you. It is designed to explain Florida’s high school graduation programs, including two programs that let students graduate from high school in three years. This section also provides information to help students and their families as they plan and prepare for postsecondary goals.

(For more information about graduation options for students with disabilities, contact your child’s guidance counselor or exceptional student education teacher, or visit www.fidoe.org/ese.)

Florida students entering their first year of high school in the 2015-2016 school year may choose from the following graduation programs:
- The traditional 24-credit program
- An International Baccalaureate (IB) Diploma Program
- ACCEL 18 credit graduation program

All of these graduation paths include opportunities to take rigorous academic courses designed to prepare students for their future academic and career choices. All students, regardless of graduation program, must still earn a specific grade point average on a 4.0 scale and achieve passing scores on the appropriate statewide assessment in order to graduate with a standard diploma (refer to graduation options charts).

Traditional 24-Credit Program
This program requires students to take at least 24 credits in subject areas such as English, mathematics, science, social studies, fine arts, and a physical education course to include the integration of health. Foreign language credit is not required for this program, although it is recommended for state college preparation and is required for admission to Florida’s state universities.

International Baccalaureate (IB) Diploma Program
The International Baccalaureate (IB) Diploma Program is a rigorous pre-university course of study, leading to internationally standardized examinations. The program is designed as a comprehensive two-year curriculum that allows its graduates to fulfill requirements of many different nations’ education systems. Students completing IB courses and exams are eligible for postsecondary education credit. The award of credit is based on scores achieved on IB exams. Students can earn up to 30 postsecondary semester credits by participating in this program at the high school level. Lacanto High School is an IB World School and is authorized to offer the IB Diploma Program.

Making the Right Choice
The right graduation program for a particular student is the one that best fits the abilities, interests, and goals of that individual student. Families should consider the educational benefits of each program and choose the one that will best prepare the student for his or her postsecondary education or career plan. Here are some things that students and families should consider.
- What is the student’s postsecondary education and/or career goal?
- Is the student prepared to make a choice about postsecondary education and possible career paths?
- Is the student mature enough to leave high school early?
- If the student is planning to attend a postsecondary institution away from home, does he or she have the mature decision-making skills needed to make the informed, safe choices required for independent living?
- Are three electives enough, or is the student interested in taking additional courses to explore their interests?
- Does the student want to participate in sports or other extracurricular activities for four years, or are three years enough?
- Can the student meet admissions requirements for postsecondary education institutions of his or her choice by choosing an early graduation program?
- Has the family considered expenses and possible financial aid needs that may result from the student starting postsecondary education a year early?
- Is the student going to compete for scholarships that require certain academic core courses, community service experiences, demonstrated leadership skills, or participation in extracurricular activities?
- Has the family considered that the student has the option of taking an additional year of academic or technical courses through dual enrollment or to earn additional AP course credit/college credit by choosing the 24-credit program?
- Is the student planning to play college level sports and needing to meet NCAA course eligibility requirements?
- If the student is enrolled in a prepaid college tuition plan, can the family pay off the balance of the plan a year early?

Families are encouraged to contact the school guidance counselor or career specialist at their child’s school to get more information about graduation programs, financial aid opportunities, accelerated programs, and college or career plans to help them make this important decision. Students and parents are also encouraged to continue to discuss these plans with the school counselor on a regular basis during the middle school and high school years. It is necessary we promote a safe and healthy lifestyle through parent, teacher, and community involvement to the benefit of our students. Students need to be interested and involved in their academic progress and in planning for their futures in order to ensure that they will be prepared to achieve their postsecondary goals. For more information about graduation programs, contact your child’s guidance counselor.

Early Admission to College
Early admission allows students with three years of high school to enter college while in high school. It is a form of dual enrollment in which eligible secondary students enroll in a postsecondary institution on a full-time basis in courses that are creditable toward the high school diploma and the associate or baccalaureate degree. Early admission is intended for students who have exhausted the academic possibilities of the high school. Further information and procedures to follow are available in the Guidance office.

Early Graduation Provision
To qualify for the Early Graduation, the Student must contact their guidance counselor and meet these requirements: a) Complete 24 credits required for graduation of student’s cohort; b) Pass all required graduation test requirements (Statewide Assessment reading/math or any required EOC exams), c) A minimum overall grade point average (GPA) of 2.0.

In order to plan all aspects of graduation for the student, this intent form should be completed at least one term prior to the anticipated graduation date. Students who successfully complete the graduation requirements may participate in the end of the year commencement exercises including honors and awards for the class with which the student graduates. Note: Eligible students who plan to enroll in college at mid-year must apply for Bright Futures by August 31st.

Note to any student graduating prior to their senior year: Grade Classification will be based on criteria in the Student Progression Plan for students (typically a student’s grade classification will not change). Students may choose to graduate with the current graduating class or wait to graduate with their cohort. For students waiting to graduate with their cohort, transcripts will NOT be available until the actual graduation date.
Opportunities for Advanced Learning

College-Level Examination Program (CLEP)

Students with strong content background in a subject area can earn credit through an examination program administered by the college they attend. One such program is the College-Level Examination Program (CLEP). Candidates for the CLEP are postsecondary students who have completed an AP course but did not take or earn a qualifying score on the AP exam. Other students who have taken several high school courses in one particular subject area may wish to take a CLEP exam when they begin selecting college courses.

For more information on CLEP testing sites and dates, contact the admissions or registrar’s office at the postsecondary institution in your area or visit: http://www.collegeboard.com/student/testing/clep/about.html

Advanced Placement

Advanced Placement courses are rigorous courses of study leading to nationally standardized exams for motivated secondary students. Students may be issued college credit based on the national exam score. Citrus County students taking AP courses are required to take the national AP exams, however, the national AP exam score will have no effect on the high school course grade earned. Students taking an AP exam without taking a comparable high school course will not be awarded high school credit. The AP exam grade is used by post-secondary institutions to determine amount of post-secondary credit granted.

• AP courses are rigorous courses of study leading to nationally standardized exams.
• May lead to college credit (credit awarded by the college or university attended) based on earning a score of 3 or higher on the national exam.
• Is preferred for students who want to go directly to a state university in Florida or who plan to go to a university outside of Florida.
• Courses are usually weighted one full point by the state universities in recalcultating GPA for admission.
• Prerequisites: strong work ethic and passing the Statewide Assessment in the related subject area.

Dual Enrollment

Qualified students may be eligible for dual enrollment by meeting district and state standards. Students may earn college credit as well as high school credit when enrolled in dual enrollment courses. Students must demonstrate readiness for college-level coursework, have at least 3.0 unweighted GPA, and have qualifying test scores as defined in the district dual enrollment agreements if they are to be enrolled in college courses. Students must demonstrate readiness for career-technical level coursework, have at least a 2.0 unweighted GPA, and have qualifying test scores as defined in district dual enrollment agreements if they are to be enrolled in career technical programs. In order for the program to qualify as a Career and Technical Program for dual enrollment status, the program must lead to an industry certification. Students must also meet any additional requirements that may be included in district guidelines developed to ensure student readiness for postsecondary instruction. Dual enrollment courses will be graded using college standards. Students must meet college catalog pre-requisites for any course in which they are dually enrolled. Students should exhaust all possible offerings at home school before pursuing options at other sites.

All dual enrollment courses taken by a student, whether during regular school day or not, must be pre-approved by high school guidance and must be a part of the student’s planned academic program. Students dually enrolled in the technical college, state university or state college system are exempted from tuition and fees. Citrus County Schools must have a dual enrollment agreement with any state college or university in order for the student to enroll as a dual enrollment student.

Students are held to the course drop dates established through the dual enrollment facility. Grades will be posted to the student’s academic history upon receipt of college or university transcript. Courses must be completed and added to academic history prior to use for promotion, graduation, or award designations according to timelines established for each.

NOTE: Grades from Dual Enrollment courses are transferred into the high school based upon the letter grade issued. No +/- grades are added to the high school transcript nor is there an effect on the high school GPA for any +/- grade that may have been earned at the college. If a student withdraws from a dual enrollment class and receives a grade of “W”, it may also be posted to the student’s high school transcript.

Students must have passed 10th grade reading state wide assessment test and EOC for Algebra 1 and Geometry for consideration for dual enrollment courses. Students needing statewide assessment or EOC remediation will not be eligible for dual enrollment. Students are no longer eligible for dual enrollment once they successfully complete 4 full years of enrollment in high school or graduation, whichever comes first. Additionally, a student who receives a grade of “D”, “F” or “FF” in a dual enrollment class, will no longer be eligible for dual enrollment.

Any exceptions to the requirements must be approved by both the high school and college’s Dual Enrollment Petitions Committee. Students and their guidance counselor are notified of the committee’s decision by phone within one week following the meeting.

Only seniors (based upon Citrus County Student Progression grade classification) will be allowed to enroll full-time (12 to a maximum of 16 credit hours in any given semester) through dual enrollment.

Dual enrollment may be limited by the capacity of the college. Additionally, students who are disruptive to the learning process may lose the opportunity to participate in dual enrollment even though the student may be qualified to continue.

Part time dual enrollment at College of Central Florida

1. Appropriate for students who want to take one or two college courses; e.g. College Algebra.
2. Students take high school classes in the morning prior to College of Central Florida or in the afternoon after College of Central Florida Classes.
3. Students must follow College of Central Florida’s schedule. The College of Central Florida holidays calendar does not always match days off.
4. College of Central Florida instructors are not lenient about absences, nor do they honor athletic commitments.
5. Students must provide their own transportation.

Full time dual enrollment at College of Central Florida

1. Appropriate for students who know their college major and want to go full time to college their senior year.
2. Students take all of their classes at College of Central Florida – Citrus County Campus.
3. Students must make an effort to keep informed about senior events and deadlines; e.g., cap and gown orders.

International Baccalaureate Program

IB is a course of rigorous instruction for Juniors and Seniors. To prepare for this course of study, interested students need to take an articulated sequence of honors classes during the Freshman and Sophomore years. This program, known as PIBS (Preparing to Identify Baccalaureate Students) lays the foundation for success when students enroll in the IB diploma program their junior year.

For entrance into the PIBS program, eighth grade students will need to submit an application by the stated deadline on the application, have qualifying test scores, and have qualifying grades during their 7th & 8th grade year. Applications can be obtained by contacting Lecanto High School or a student’s current middle school.

Students accepted into the PIBS program will follow the sequence of courses listed below.

9th Grade PIBS
Pre-IB English I
Pre-IB Inquiry Skills
Math
Pre-IB Spanish I
Pre-IB Biology I
Health and Personal Fitness
One Elective

10th Grade PIBS
AP English Language and Composition
AP World History
Math
Pre-IB Spanish 2
Pre-IB Chemistry
One Elective

11th Grade IB
IB English
IB History of the Americas
IB Math
IB Science
IB Art
IB Spanish
IB Theory of Knowledge

12th Grade IB
IB English
IB History of the Americas
IB Math
IB Science
IB Art
IB Spanish
IB Theory of Knowledge

Weighted Grades

Along with the unweighted grade point average calculated for each student, a weighted average will also be calculated. For each course designated for weighting – AP, Dual Enrollment, IB, Pre-IB, AICE, Pre-AICE in which students earn at least a “C”, an additional quality point will be added during the grade point average calculation. Additionally, Level 3 courses and honors level courses in the core academic areas (English, Math, Science, Social Studies and World Language) will also be eligible for weighting. The third course of high school CTE program that leads to an industry certification may also be weighted.

Weighted grades are for Citrus County use only and are based on all course attempts, not grade forgiven. The State of Florida encourages each county to develop its own system of weighted grades. Bright Futures, colleges and universities, and other districts determine their own system of weighting grades. The number of courses, the specific courses, and the way they are weighted may differ. The weighted GPA calculated in one system is not comparable to another system’s weighted GPA.

Guidance counselors will help students locate their Bright Futures GPA that is based on a portion of courses taken by students in high school.

PLEASE NOTE: The Weighting Policy for the Florida Bright Futures Scholarship program and the State University System is different than those established by individual school districts. Weighted grade point average is not used to meet the graduation requirement. For a list of weighted courses for each purpose, please see your guidance counselor.

College Readiness Tests

Students can help themselves determine their readiness for post-secondary education by taking one or more of the assessments available, such as, SAT, ACT or PERT. There is a fee charged by each of these testing services. All tenth grade students are encouraged to take the PSAT, in fact, the State of Florida will pay the fee for this test. This is a great opportunity to help students see their potential. Information is available for all testing programs in the high school guidance office.

Do you want to Play College Athletics?

Students must be designated eligible by the NCAA Clearinghouse in order to play at the College Level. In the junior year, students need to register with the clearinghouse to have transcripts evaluated. It is important that students have the appropriate credits, GPA, and college testing requirements in order to be declared eligible. Then during the senior year, remaining coursework needs to be completed and a final transcript sent to the clearinghouse. Note that some online coursework is NOT acceptable to NCAA. Further information and registration information is available at www.eligibilitycenter.org
Grade Forgiveness

For academic courses, the “D” or “F” will only be replaced with the grade of “C” or better earned subsequently in the same or comparable course. A maximum of two credits may be earned in meeting the Algebra I requirement. In elective courses the “D” or “F” will only be replaced with the grade of “C” or better earned subsequently in another (or same) course. All course grades not grade forgiven and attempts at grade forgiveness not replaced with a “C” or better shall be included in the calculation of cumulative grade point average used to determine graduation eligibility. All grades whether replaced or not will appear on student transcripts.

Lecanto School of the Arts

Lecanto School of the Arts is a unique program designed for students with a special interest in the visual arts. This program brings students who meet the criteria into a specialized study of art. There are two equally valid and exciting paths to completion of the LSA Program. The LSA Academy Academic and the PIBS/IB Program. In both options, the students take a sequential series of LSA Art classes throughout their four years of high school. Eighth grade students are selected each year from the middle schools to enter the LSA Program as freshmen. The selection process includes a digital application, an essay, and an evaluation of student artwork submitted through the digital application. In addition a review of academics, FSA, attendance and discipline is completed.

Citrus High School

Academy Of Computer Science

The Academy of Computer Science is a special program designed to engage high school students in computational thinking through problem-solving and project-based learning. Students will learn professional programming languages and platforms to be able to develop their own apps, construct their own graphical user interfaces and learn many of the fundamentals of computer science.

Enrollment for the Academy of Computer Science will be by application only. Incoming 9th grade will be considered based on completion of the application process. Only a limited number of applicants will be accepted.

Students entering the program will take Digital Information Technology and Programming Essentials in year one followed by Advanced Placement Computer Science Principles (Python programming) and Web Technologies (HTML & CSS) in year two. In year three, students will take Advanced Placement Computer Science A (Java programming) then finish up with a course in Cybersecurity in year four.

Academy Information including the application and deadlines for applying can be found at chs.citruschools.org or by calling Mr. Jerry Swiatek at (852)726-2241 x4562.

Academy Of Environmental Science

The Academy of Environmental Science, Inc., a public charter high school, is located on West Fort Island Trail in Crystal River. The Academy’s mission is to instill in our students a sense of environmental stewardship and provide unique and challenging educational opportunities. Students from grades nine and ten encounter the environment first-hand through exploration and discovery. The Academy cooperates with local environmental organizations and businesses which helps provide Academy students with a complete academic curriculum in several fields of study.

Students interested in attending the Academy must apply for admission. Academy information and an online application can be found at www.aes.citruschools.org. Interested students may also pick up an application packed in the guidance office of their current school. The eligibility criteria include:

- Student in grades 9 and 10 in a Citrus County high school
- Passes an academy staff review of discipline and attendance records

Please call 352-795-8793 with any questions.

Florida Department Of Education Resources

FloridaShines.org
This multipurpose website allows students to explore colleges, find virtual options and use a career planning tool (MyCareerShines) all at this site.

Office Of Student Financial Assistance (OSFA)
Office of Student Financial Assistance (OSFA) administers state-funded grants and scholarship programs and federal student loan financial aid programs to assist students with the costs of postsecondary education. For information, go to www.floridastudentfinancialaid.org or call toll-free (888) 366-3475.

Federal Student Aid
Federal student aid Web site provides information for families about federal financial assistance for postsecondary education, including application forms and a calculator to help figure college costs and financial need. Visit www.studentaid.ed.gov.

Talented 20 Program
Graduates from Florida public high schools who rank in the top 20% of their class and have completed the required 18 units of core courses shall be admitted into one of the eleven state universities, although not necessarily the university of the applicant’s choice. Local high schools will determine their “prospective” talented 20 students at the end of the first term of the senior year. Top students are encouraged to apply for admission at the university of their choice early in the senior year. This program does not guarantee students’ admission into limited access programs. For more information on how to qualify, visit www.fldoe.org/Talented20 or call the Student Support Services Project office at (850) 245-7849.

*NOTE: Subject to change yearly by Florida Legislature
# STANDARD DIPLOMA REQUIREMENTS AND DESIGNATIONS

**For Cohorts Entering High School in 2011 and beyond**

This information is subject to change based upon State School Board Action and Legislative Action.

For all Cohorts enrolled in Citrus County Schools, all EOC courses taken in 2014-15 and beyond – the EOC results will count as 30% of the final course grade.

¹ Industry Certifications that are substituted to meet Core Course Requirements may not count for State University Admission, Bright Futures or other admission/scholarships requirements. Please check with the school or agency before making decisions regarding this option.

² All students may earn either or both designations if they meet all requirements listed in the table for each designation.

³ A student enrolled in an AP or IB courses in Biology or United States History and earns the minimum score necessary to earn college credit as identified pursuant to s. 1007.27(2) is not required to take the statewide standardized EOC assessment in those subjects in order to earn the Scholar Diploma Designation.

⁴ Beginning with the 9th grade class entering high school in 2014-15, the English Grade 11 Assessment, Algebra 2 EOC, Geometry EOC become Must Pass for the Scholars Designation.
**FLORIDA BRIGHT FUTURES SCHOLARSHIP AND POST-SECONDARY ADMISSION REQUIREMENTS**

This is the Initial Eligibility criteria for high school students graduating in 2016. Major legislation is being proposed for Bright Futures. Please contact your Guidance Counselor for further questions or updates.

**Foreign Language Requirement**

Two years in the same language is required for admission to any of Florida’s eleven public universities. Any student who plans to transfer to a state university after community college must have completed two years of the same foreign language prior to enrollment at the university. This requirement may be met either at the high school or community college level. It is highly recommended that a student complete this requirement at the high school level and they begin their foreign language study prior to their senior year.
SYMBOLS/KEY

The following symbols are used throughout the course description section of the curriculum guide. Their meaning is indicated below:

#  Meets the practical arts requirement for graduation
✓  Meets the performing fine arts requirement for graduation
*  Course is recognized by the State University System and the Florida Bright Futures Scholarship program as a core course
X  Course is available on that campus
+  Course is weighted in accordance with the Citrus County Schools Student Progression Plan. See "Weighted Grade Point Average"
■  Career Pathways

Program/Course Descriptions

Program Name: Name of series of courses that when completed may result in occupational completion points or certification in career/technical area
Course Name: Name, number, and level of course as designated in State Course Code Directory
Prerequisite: Minimum needed to enroll in course, which may include successful completion of specific course(s) listed
Recommended: Suggested for highest probability of success
Description: Short overview of course content
Credit: High school credit issued for successful completion of course during term (18 weeks on block schedule). Most 1 credit courses are offered in two parts (2 - 9 week quarters on block schedule) in which student may earn .5 credit for each.

Programs Of Study For Gold Seal Eligibility

(To be eligible for Gold Seal, students must complete ONLY 3 credits of a career and technical education program-including its core courses)

NOTE: Approximate cost of materials for elective courses are listed in the course descriptions. Fundraisers may help to defray the cost for some activities. Any student who cannot financially meet the cost should see the teacher of the course.
### Allied Health Assisting

**Course: 8417131 Allied Health Assisting**

- **Prerequisite:** Concurrent enrollment in, or completion of, Health Science I.

- **Description:** Students will perform skills representative of three areas of allied health care in the laboratory and clinical settings. Students will apply academic skills, terminology, and hands-on procedures for the areas covered. The areas covered may change according to the licensure of the instructor. Projected areas are dental, veterinary services, and radiology.

- **Industry Certification Available:** National Occupational Competency Testing Institute - Health Assisting

### Automotive Collision Technology

**Technician (Dual Enrolled):**

- **ARR0140 Automotive Collision Repair and Refinishing Helper/Assistant**
- **ARR0141 Automotive Collision Refinishing Technician**
- **ARR0312 Non-Structural Damage Repair Technician**
- **ARR0022 Damage Analysis and Estimating**
- **ARR0112 Automotive Collision Welding, Cutting and Joining**
- **ARR0295 Structural Damage Repair Technician**

- **Industry Certification Available:** Automotive Service Excellence Certification

### Building Trades and Construction Design Technology

**Course: C100100**

- **BCV0080 Building Construction Assistant**
- **BCV0081 Carpentry and Masonry Technician**
- **BCV0082 Electrical and Plumbing Technician**
- **BCV0083 Building Maintenance Technician**

- **Industry Certification Available:** National Center for Construction Education and Research - Carpentry

### Communications Technology

**Course: I470608**

- **AER0014 Automobile Services Assistor**
- **AER0110 Engine Repair Technician**
- **AER0257 Automatic Transmission and Transaxle Technician**
- **AER0274 Manual Drivetrain and Axle Technician**
- **AER0453 Automobile Suspension and Steering Technician**
- **AER0418 Automotive Brake System Technician**
- **AER0360 Automotive Electrical/Electronic System Technician**
- **AER0172 Automotive Heating and Air Conditioning Technician**
- **AER0503 Automotive Engine Performance Technician**

- **Industry Certification Available:** Automotive Service Excellence Certification

### Biomedical Sciences

**Course: 8708100 Biomedical Sciences**

- **8708110 Principles of the Biomedical Sciences**
- **8708120 Human Body Systems**
- **8708130 Medical Interventions**
- **8708140 Biomedical Innovation**

- **Industry Certification Available:** Biotechnician Assistant Credentialing Exam

### Business Management and Analysis

**Course: 8301100 Business Management and Analysis**

- **8207310 Digital Information Technology**
- **8215120 Business and Entrepreneurial Principals**
- **820310 Accounting Applications I**
- **8301110 Management and Human Resources**
- **8301120 Business Analysis**
- **8215130 Legal Aspects of Business**

- **Industry Certification Available:** Microsoft Office Specialist, Microsoft Office Master, Quickbooks

### Cosmetology (Full-Time Enrollment Only)

**Course: 8905100**

- **8757210 Grooming and Salon Services Core 1**
- **8905120 Cosmetology Nails 2**
- **8905130 Cosmetology Facials 3**
- **8905140 Cosmetology 4**
- **8905150 Cosmetology 5**
- **8905160 Cosmetology 6**
- **8905170 Cosmetology 7**
- **8905180 Cosmetology 8**
- **8905190 Cosmetology 9**

- **Licensure Available:** Florida Department of Business and Professional Regulation - Cosmetologist

### Culinary Arts

**Course: 8800500**

- **8800510 Culinary Arts 1**
- **8800520 Culinary Arts 2**
- **8800530 Culinary Arts 3**
- **8800540 Culinary Arts 4 (Track 1 Culinary and Hospitality Management)**
  - OR
  - **8800550 Culinary Arts 4 (Track 2 Advanced Baking Techniques)**
  - OR
  - **8800560 Culinary Arts 4 (Track 3 Gastronomy and Garde Manger Skills)**

- **Industry Certification Available:** National ProStart Certificate of Achievement, ServSafe Certified Protection Food Manager

### Professional Culinary Arts and Hospitality (Dual Enrolled)

**Course: N100500**

- **HMV0100 Food Preparation**
- **HMV0170 Cook – Restaurant**
- **HMV0171 Chef/Head Cook**
- **HMV0126 Food Service Management**

- **Industry Certification Available:** ServSafe National Certificate of Achievement

### Dental Aide

**Course: 8417140**

- **8417100 Health Science Anatomy and Physiology**
- **8417110 Health Science Foundations**
- **8417141 Dental Aide 3**

* "Average Tuition and Fees Per Credit Hour" represents a weighted mean of the Florida College System institutions' tuition and fees per credit hour.

Source: Resident Students Fee Per Credit Hour, Fall 2017-18, Credit Programs: A & P, PSV, Developmental Education and EPI Programs

Based on Active Articulation Agreements adopted by the State Board of Education in May 2018

2018-19 Average Tuition and Fees per Credit Hour* $ 106.88
Students choosing to purchase these materials through the school will be charged on an individual basis equal to the cost of the materials. These projects will become the property of the students upon completion of the projects. Students taking the following courses in which optional projects may be done may purchase the necessary materials from the school or bring them from home. These projects will become the property of the students upon completion of the projects.

#### SYMBOLS/KEY

The following symbols are used throughout the course description section of the curriculum guide. Their meaning is indicated below:

- # Meets the practical arts requirement for graduation
- ✓ Meets the performing fine arts requirement for graduation
- ✗ Course is recognized by the State University System and the Florida Bright Futures Scholarship program as a core course
- X Course is available on that campus
- ☑ Career Pathways
- + Course is weighted in accordance with the Citrus County Schools Student Progression Plan. See “Weighted Grade Point Average”
## ARCHITECTURE AND CONSTRUCTION

### Program Name: Animal Science and Services (8106200)
**Course Name:** Animal Science and Services 2 (8106210) Level 2  
**Prerequisite:** Agriscience Foundations 1 (8106810)  
**Recommended:** Grades 10-12  
**Description:** This course is designed to develop competencies in the areas of safety, animal behavior, animal welfare, animal control; and employability skills.  
**Credit:** 1

### Program Name: Animal Science and Services (8106200)
**Course Name:** Animal Science and Services 3 (8106220) Level 2  
**Prerequisite:** Animal Science and Services 2  
**Recommended:** Grades 10-12  
**Description:** This course is designed to develop competencies in the areas of animal digestive systems; animal bleeding; preventative medicine and disease control; control of parasites; animal marketing; and analyzing records.  
**Credit:** 1

### Program Name: Agritechnology (8106800)
**Course Name:** Agritechnology 1 (8106810) Level 2  
**Prerequisite:** Agritechnology 1  
**Recommended:** Grades 10-12  
**Description:** This course is designed to develop competencies in the areas of agriscience industry careers. The content includes prevention and treatment of livestock diseases, livestock anatomy, wholesale cuts of meat, animal-health practices, plant growth, plant fertilization, safe use of pesticides, maintenance of tools and equipment, record keeping, and employability skills.  
**Credit:** 1

### Program Name: Agritechnology (8106800)
**Course Name:** Agritechnology 2 (8106820) Level 2  
**Prerequisite:** Agritechnology 1  
**Recommended:** Grades 10-12  
**Description:** This course is designed to further develop competencies in the areas of agricultural industry careers. The content includes job and training requirements, professional organizations, application of medications to livestock, animal nutrition, feeds and feeding, marketing livestock, crop identification, planting crops, pest control, fertilizer calculations and application, irrigation, packing and grading crops, safe equipment operation, finance and employability skills.  
**Credit:** 1

### Course Name: Advanced Concepts of Agriscience (8100330)  
**Prerequisite:** Grade 12  
**Recommended:** Students who have completed or are currently completing an OCP in an agricultural program, or are currently in Agriscience 3  
**Description:** The purpose of this course is to provide students who have completed or are currently completing an OCP in an agricultural program, a capstone experience in research or problem solving. The content is prescribed by the instructor based upon the individual student’s assessed needs.  
**Credit:** 1

### Program Name: Agriscience and Natural Resources Education  
**Course Name:** Agriculture Education Directed Study (8100100)  
**Prerequisite:** Agritechnology 2  
**Recommended:** Grade 12  
**Description:** This course provides an opportunity for developing a specific area of interest in the agriscience field. The student and the agriscience teacher will work together to develop an independent study program in agriscience.  
**Credit:** 1

**BUSINESS, MANAGEMENT AND ADMINISTRATION**

**Program Name:** Accounting Applications (8203400)  
**Course Name:** Accounting Applications 1 (8203310) Level 2  
**Prerequisite:** Digital Information Technology  
**Recommended:**  
**Description:** This course emphasizes double-entry accounting; methods and principles of recording business transactions; the preparation of various documents used in recording income, expenses, acquisition of assets, incurrence of liabilities, and changes in equity; and the preparation of financial statements. The use of computers is required.  
**Credit:** 1

**Program Name:** Accounting Applications (8203400)  
**Course Name:** Accounting Applications 2 (8203320) Level 2  
**Prerequisite:** Accounting Applications 1  
**Recommended:** 2.0 in Accounting Applications 1  
**Description:** This course is designed to continue the study of accounting principles. The content includes voucher systems, cash receipts, petty cash, payroll records, and internal control systems. The use of computers is required.  
**Credit:** 1

**Program Name:** Administrative Office Specialist (8212500)  
**Course Name:** Administrative Office Technology 1 (8212110) Level 2  
**Prerequisite:** Digital Information Technology  
**Recommended:** Typing speed of 30 wpm, Good attendance and discipline record  
**Description:** This course is designed to train students to assist with administrative and general office duties in a support capacity. Students are required to perform higher level thinking and decision making skills in using technology to produce quality work in an efficient manner. Career development and job acquisition skills are an integral part of this course.  
**Credit:** 1

**Program Name:** Administrative Office Specialist (8212500)  
**Course Name:** Business Software Applications 1 (8212120) Level 2  
**Prerequisite:** Digital Information Technology  
**Recommended:** Good attendance and discipline record, Keystroke at the rate of 30 wpm  
**Description:** This course is designed to develop proficiency in using the advanced features of software programs to perform office-related tasks.  
**Credit:** 1

**Program Name:** Business Management and Analysis (8215120)  
**Course Name:** Business and Entrepreneurial Principles (8215120) Level 2  
**Prerequisite:** Digital Information Technology  
**Recommended:** Good attendance and discipline record, Keystroke at the rate of 30 wpm  
**Description:** This course is designed to provide an introduction to the business organization, management, and entrepreneurial principals. Topics include communication skills, various forms of business ownership and organizational structures, supervisory/management skills, leadership skills, human resources management activities, business ethics and cultural diversity.  
**Credit:** 1

### Engineering and Technology Education

**Program Name:** Communications Technology (8601000)  
**Course Name:** Communications Technology I (8601101) Level 2  
Communication Technology 2 (8601202) Level 2  
Communication Technology 3 (8601303) Level 2  
**Prerequisite:** These courses are a sequential continuation of the previous level.  
**Recommended:**  
**Description:** These courses provide an introduction to the knowledge and technically oriented experience in the study of communication technology. This program focuses on the transferrable skills and stresses understanding and demonstration of the technological tools, machines, instruments, materials, processes and systems in business and industry. Students are given the opportunity to demonstrate competency in two of the four printing processes. Students will produce designs and logos using the five principles of design. Students will also be provided the opportunity to work on real world jobs.  
**Credit:** 1 credit each course

### Health Science

**Program Name:** Core Course for Health Science Cluster  
**Course Name:** Health Science Anatomy and Physiology (8417100) Level 2  
**Prerequisite:** Medical Skills and Services  
**Recommended:** Grade 10  
**Description:** This course will cover diseases of the human body, signs, symptoms, causes, treatment and the prevention of diseases, (4 for each of the 9 systems), recognizing symptoms, and psychology of illness.  
**Credit:** 1

**Program Name:** Core Course for Health Science Cluster  
**Course Name:** Health Science Foundations Level 3  
**Prerequisite:** Health Science 1  
**Recommended:** Grade 11, scheduled concurrently with Nursing Assistant III  
**Description:** This course will cover information on the health care delivery system and health occupations as well as legal and ethical responsibilities, communication and interpersonal skills, employability skills, wellness and disease concepts, safety and security procedures, emergency situations, infection control, knowledge of blood borne diseases, and basic math and science skills. Re-certification in CPR is also covered.  
**Credit:** 1

**Program Name:** Biomedical Sciences (8708100)  
**Course Name:** Principles of the Biomedical Sciences (8708110)  
**Prerequisite:** Application for Biomedical Program  
**Description:** Students investigate the human body systems and various health conditions. This course is designed to provide an overview of all the courses in the Biomedical Sciences program and lay the scientific foundation for subsequent courses. Students are introduced to human physiology, medicine, research processes and bioinformatics. Key biological concepts including homeostasis, metabolism, inheritance of traits, and defense against disease are embedded in the curriculum. Engineering principles including the design process, feedback loops, and the relationship of structure to function are also incorporated.  
**Credit:** 1
### HOSPITALITY AND TOURISM

**Program Name:** Commercial Foods and Culinary Arts/Professional Culinary Arts and Hospitality (N100500)
**Prerequisites:** Grades 11-12; 2.0 GPA or higher; good attendance and discipline history
**Recommended:** Read at or above grade level established for program by the State of Florida with good technical reading skills
**Description:** This program prepares students for employment in the food service industry. Opportunities will be provided to continue to develop their skills in the food service industry. Opportunities will be provided to practice communication skills, create employment charts, prepare and present food products, follow quality standards, leadership skills, and work independently to complete the course objectives. Careers in the food service industry will be researched. Students will be eligible to take the ServSafe Food Handler Certificate.
**Credit:** 1

**Program Name:** Parenting Skills (8500300)
**Course Name:** Parenting Skills (8500300)
**Recommended:**
**Description:** This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.
**Credit:** .5

### HUMAN SERVICES

**Program Name:** Culinary Arts (8800500)
**Course Name:** Culinary Arts 1 (8800510) Level 2
**Prerequisite:** Culinary Arts 3 (8800530) Level 2
**Recommended:** Grades 10-12
**Description:** This program introduces high school students to careers in food service and teaches basic skills and knowledge they need for success.
**Credit:** 1

**Program Name:** Parenting Skills (8500300)
**Course Name:** Parenting Skills (8500300)

**Credit:** .5
**Program Name:** Cosmetology (8905100); Full day attendance required  
**Prerequisites:** Grade 12; completed all graduation criteria including all state assessment requirements; 2.0 GPA or higher; good attendance and discipline history  
**Recommended:** Read at or above grade level established for program by the State of Florida with good technical reading skills  
**Description:** This program prepares students for employment as a licensed Cosmetologist specializing in skin, hair and nails. The content includes: acquisition of knowledge of the cosmetologist/nails specialist/facial specialist and the related chemistry; bacteriology, anatomy and physiology; art of make-up; and development of skill in performing the manipulative and electrical techniques required in the practice of cosmetologist, nails specialist and facials specialist occupations. Additional aspects include communication, leadership, human relations and employability skills; safe and efficient work practices; and Florida cosmetology law and rules. Students are prepared for the Florida State Board Examination for licensure as a cosmetologist.  
**Credit:** Total program 8 credits.

**INFORMATION TECHNOLOGY**

**Program Name:** Network Systems Administration (B079300)  
**Prerequisites:** Technology Support Services (Y100100); grades 11-12; 2.0 GPA or higher; good attendance and discipline history  
**Recommended:** Read at or above grade level established for program by the State of Florida with good technical reading skills  
**Description:** This program prepares students for employment as a Local Area Network (LAN) Technician, a Computer End User Support Technician, or Computer Support Specialist or Technician. Content includes software fundamentals, computer systems architecture, peripheral equipment, electronic information exchange and an introduction to computer security. Students are prepared for CompTIA Network+ and other nationally recognized industry related certifications.  
**Credit:** Credit is awarded upon completion of each course per FLDOE guidelines.

**Program Name:** Applied Cybersecurity (Y100300)  
**Prerequisites:** Network Systems Administration (B079300); grades 11-12; 2.0 GPA or higher; good attendance and discipline history  
**Recommended:** Read at or above grade level established for program by the State of Florida with good technical reading skills  
**Description:** This program prepares students for employment as an IT security professional. The content includes knowledge and skills in computer and network security, security vulnerabilities, attack mechanisms and techniques, intrusion detection and prevention, cryptographic systems, system hardening, risk identification, incidence response, penetration testing, key management, access control and recovery. Students are prepared for CompTIA Security+ and other nationally recognized industry related certifications.  
**Credit:** Credit is awarded upon completion of each course per FLDOE guidelines.

**SYMBOLS/KEY**

The following symbols are used throughout the course description section of the curriculum guide. Their meaning is indicated below:

- # Meets the practical arts requirement for graduation
- ✓ Meets the performing fine arts requirement for graduation
- * Course is recognized by the State University System and the Florida Bright Futures Scholarship program as a core course
- X Course is available on that campus
- + Course is weighted in accordance with the Citrus County Schools Student Progression Plan. See “Weighted Grade Point Average”
- ■ Career Pathways
MANUFACTURING

Program Name: Welding Technology (J400400)
Prerequisites: Grades 11-12; 2.0 GPA or higher; good attendance and discipline history
Recommended: Read at or above grade level established for program by the State of Florida with good technical reading skills. Students will need to use precise measurements; therefore, knowledge of fractions and decimals is recommended.
Description: This program prepares students for employment as a Journeyman Welder. Content includes the major welding, cutting and related processes such as SMAW, GTAW, GMAW, FCAW, OAW, brazing, oxy-acetylene and plasma arc cutting in addition to blueprint reading and safety. Students are prepared for OSHA-10 requirements, and AWS and NCCER industry certifications. (NCCER training and educational facility.)
Credit: 1

TRANSPORTATION, DISTRIBUTION AND LOGISTICS

Program Name: Automotive Collision Technology Technician (T401300)
Prerequisites: Grades 11-12; 2.0 GPA or higher; good attendance and discipline history
Recommended: Read at or above grade level established for program by the State of Florida with good technical reading skills. Students will need to use precise measurements; therefore, knowledge of fractions and decimals is recommended.
Description: This program prepares students for employment as automobile body repairers and painters. Content includes: basic trade skills; refinishing skills; sheet-metal repair skills; frame and unibody squaring and aligning; use of fillers; paint systems and undercoats; related welding skills; related mechanical skills; trim-hardware maintenance; glass servicing; and other miscellaneous repairs. Students are prepared for NATEF/ASE industry certifications. (NATEF/ASE accredited facility.)
Credit: Credit is awarded upon completion of each course per FLDOE guidelines.

DRAMA

Course Name: Acting 1 (0400370) Level 2
Prerequisite: Stagecraft 1 Stagecraft 2 or Comprehensive Theatre 1
Recommended: Grades 11-12
Description: The purpose of this course is to enable students to develop fundamental acting skills and integrate them into individual and ensemble theatrical performances. The content should include, but not be limited to: acting techniques and character analysis, movement and vocal production, script analysis, audience analysis, roles and careers and auditioning and casting.
Credit: 1

Course Name: Acting 2 (0400380) Level 2
Prerequisite: Acting 1
Recommended: Grades 11-12
Course description: The purpose of this course is to enable students to develop basic acting skills and integrate them into individual and ensemble theatrical performances. The content should include, but not be limited to: acting techniques and character analysis, movement and vocal production, historical and cultural influences, script analysis and selection, the role of the director, and auditioning, casting and resumes.
Credit: 1

Course Name: Theatre Improvisation (0400620)
Prerequisite: Recommended: Grades 9-12
Description: The purpose of this course is to enable students to demonstrate basic knowledge and skills related to improvisation. Students will be provided with a firm foundation in improvisational acting, the elements of improvisation, comedy writing, script exploration and analysis, and communication skills.
Credit: 1

Course Name: Musical Theater (0400700)
Musical Theater 1 (0400710)
Musical Theater 2 (0400720)
Recommended: Grades 11-12
Description: Course work focusing on musical theater performances.
Credit: 1
Course: Technical Theatre Design & Production 1 (0400410) Level 2
Prerequisite: Grades 10 - 12
Description: Students focus on developing the basic tools and procedures for creating elements of technical theatre, including costumes, lighting, makeup, properties (props), publicity, scenery, and sound. Technical knowledge of safety procedures and demonstrated safe operation of theatre equipment, tools, and raw materials are central to success in this course. Students explore and learn to analyze dramatic scripts, seeking production solutions through historical, cultural, and geographic research. Students also learn the basics of standard conventions of design presentation and documentation, the organizational structure of theatre production and creative work in a collaborative environment; and the resulting artistic improvement. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend or participate in technical work, rehearsals, and/or performances beyond the school day to support, extend, and assess learning in the classroom.
Credit: 1

Course: Technical Theatre Design & Production 2 (0400420) Level 2
Prerequisite: Technical Theatre Design & Production 1
Recommended: Grades 11 - 12
Description: Students focus on the design and safe application of basic tools and procedures to create elements of technical theatre, including costumes, lighting, makeup, properties (props), publicity, scenery, and sound. Students develop assessment and problem-solving skills; the ability to connect selected literature to a variety of cultures, history, and other content areas. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend or participate in technical work, rehearsals, and/or performances beyond the school day to support, extend, and assess learning in the classroom.
Credit: 1

Course: Technical Theatre Design & Production 3 (0400430) Level 2
Prerequisite: Technical Theatre Design & Production 2
Recommended: Grades 11 - 12
Description: Students regularly reflect on aesthetics and issues related to and addressed through theatre, and create within various aspects of theatre. Student designers and technicians assemble a portfolio that showcases a body of work representing artistic growth over time; growing command of theatre skills and techniques in one or more areas; and evidence of significant oral and written analytical and solving skills. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend or participate in technical work, rehearsals, and/or performances beyond the school day to support, extend, and assess learning in the classroom.
Credit: 1

Course: Technical Theatre Design & Production 4 Honors (0400440)
Level 3
Prerequisite: Technical Theatre Design & Production 3
Recommended: Grades 11 - 12
Description: Students regularly reflect on aesthetics and issues related to and addressed through theatre, and create within various aspects of theatre in ways that are progressively more innovative. Students analyze increasingly more sophisticated theatre literature to inform the work of developing technical design and production pieces for one-acts or a larger production. Students assemble a portfolio that showcases an extensive body of work representing personal vision and artistic growth over time. Public performances may serve as a culmination of specific instructional goals. Students may be required to participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom.
Credit: 1

Subject Area: Academic
Course Name: Access Earth/Space Science (7920020)
Prerequisite: Individual Education Plan
Description: The purpose of this course is to provide students with significant cognitive disabilities access to the concepts and content of Earth/Space Science. Understanding the dynamic relationship between the environment, the Earth and the universe improves the ability to predict how we impact our surroundings and prepares us to respond to and interact with the forces and objects of nature.
Credit: Course may be taken for up to two credits
Diploma Option: For students taking Florida Alternative Assessment

Subject Area: Academic
Course Name: Access Integrated Science 1 (7920025)
Prerequisite: Individual Education Plan
Description: The purpose of this course is to provide students with significant cognitive disabilities access to the concepts and content of Integrated Science. Understanding the characteristics of and dynamic relationship between energy, matter, life and the environment improves the ability to predict how we impact our surroundings and prepares us to respond to and interact with the forces and objects of nature.
Credit: Course may be taken for up to two credits
Diploma Option: For students taking Florida Alternative Assessment
### Subject Area: Academic

**Course Name**: Access United States Government (7921015)

**Prerequisite**: Individual Education Plan

**Description**: Access United States Government consists of the following content area strands: Civics and Government and Geography.

**Credit**: 1

**Diploma Option**: For students taking Florida Alternative Assessment

---

**Subject Area**: Academic

**Course Name**: Access Liberal Arts Mathematics (79120710)

**Prerequisite**: Individual Education Plan

**Description**: The purpose of this course is to develop the algebraic and geometric concepts and processes that can be used to analyze and solve a variety of routine and non-routine real-world and mathematical problems.

**Credit**: Course may be taken for up to two credits

**Diploma Option**: For students taking Florida Alternative Assessment

---

**Program Name**: Academic

**Course Name**: Access Biology 1 (7920015)

**Prerequisite**: Student Individual Education Plan

**Description**: Study of living and non-living systems and how they interact with one another in logical and organized ways (cause and effect). It explains the orderly nature of the world around us and reinforces the calculable, rather than random, nature of life. With such knowledge, the way each of us interacts with our environment becomes more predictable. When people can predict outcomes in life, they gain control of their environment, their fears, and their destiny.

**Credit**: Course may be taken for up to two credits

**Diploma Option**: For students taking Florida Alternative Assessment

---

**Program Name**: Academic

**Course Name**: Access United States History (7821025)

**Prerequisite**: Student Individual Education Plan

**Description**: Study of the distinctive characteristics, dynamics, and history of local and global cultures. Examining the interrelationship among resources, customs, values, and beliefs of diverse cultures contributes to our ability to interact with others and develop both civic and social competence. Some students might study the details of cultures and institutions to understand the freedoms they enjoy, or to make informed and reasoned decisions for the public good. Others may focus on the characteristics of people, places, and the dynamic nature of relationships to participate more effectively in the world around them.

**Credit**: Course may be taken for up to two credits

**Diploma Option**: For students taking Florida Alternative Assessment

---

**Program Name**: Academic

**Course Name**: Access Algebra 1A (7912080)

**Prerequisite**: Student Individual Education Plan

**Description**: This course provides the means to organize, understand, and predict life’s events in quantifiable terms. Organizing life using numbers allows us to keep accurate records of objects and events, such as quantity, sequence, time, and money. Using numbers to understand the relationship between relative quantities or characteristics allows us to accurately problem solve and predict future outcomes of quantifiable events as conditions change.

**Credit**: Course may be taken for up to two credits

**Diploma Option**: For students taking Florida Alternative Assessment

---

### SYMBOLS/KEY

The following symbols are used throughout the course description section of the curriculum guide. Their meaning is indicated below:

- # Meets the practical arts requirement for graduation
- ✓ Meets the performing fine arts requirement for graduation
- + Course is weighted in accordance with the Citrus County Schools Student Progression Plan. See “Weighted Grade Point Average”
- ✰ Career Pathways
### Subject Area: Academic

**Course Name:** Access Geometry (#7912065)

**Description:** The fundamental purpose of the course in Geometry is to formalize and extend students’ geometric experiences from the middle grades. Students explore more complex geometric situations and deepen their explanations of geometric relationships, moving towards formal mathematical arguments. Important differences exist between this Geometry course and the historical approach taken in Geometry classes. For example, transformations are emphasized early in this course. Close attention should be paid to the introductory content for the Geometry conceptual category found in the high school standards. The Standards for Mathematical Practice apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. The critical areas, organized into five units are as follows.

- **Unit 1:** Transformations and Congruence
- **Unit 2:** Similarity, Right Triangles, and Trigonometry
- **Unit 3:** Circles
- **Unit 4:** Expressions, Equations, and Application
- **Unit 5:** Extending Geometry

Students will be exposed to historical periods leading to the beginning of the 21st Century. So that students can clearly see the relationship between one and effect in historical events, students should have the opportunity to review those fundamental ideas and events from ancient and classical civilizations.

**Program Name:** Access World History (#7921027)

**Description:** The grade 9-12 World History course consists of the following content area strands: World History, Geography and Humanities. This course is a continued in-depth study of the history of civilizations and societies from the middle school course, and includes the history of civilizations and societies of North and South America. Students will be exposed to historical periods leading to the beginning of the 21st Century. So that students can clearly see the relationship between cause and effect in historical events, students should have the opportunity to review those fundamental ideas and events from ancient and classical civilizations.

**Program Name:** REACH

**Course Name:** REACH Methodology for Students who are Gifted (7965010)

**Prerequisite:** Current Individual Education Plan in the Reach/Gifted Program

**Recommended:** Grades 11-12

**Description:** This course provides opportunities to explore research methodology and to investigate college and career choices. Activities include: guided tours at nearby universities or colleges, using the Internet to search for scholarships, apply to colleges, and prepare for the SAT and/or ACT. Students will be required to research job preferences in the community, learn job-related skills, and locate possible externship placements in their senior year.

**Credit:** 1

**Diploma Option:** Standard Diploma Elective

**Program Name:** REACH

**Course Name:** Gifted Externship (7965030)

**Prerequisite:** Current Individual Education Plan in the Reach/Gifted Program and Research Methodology for the Gifted

**Recommended:** Grades 10-12

**Description:** This senior level course offers seniors the opportunities for exploring career choices before committing to a college program. A portion of the program involves placing a student with an approved community sponsor to explore a career, pursue academic study, and/or work with a community leader. Placement is based on the student’s interest, talents, and abilities. Attendance at weekly seminars is required. These will further enhance skills in leadership, problem solving, decision making.

**Credit:** Multiple

**Program Name:** REACH

**Course Name:** Gifted Health Opportunities Through Physical Education 9-12 (7965015)

**Prerequisite:** Individual Education Plan

**Description:** Developing physical skills and team sensibilities through physical education promotes active participation in home, school, and community learning and social activities, which, in turn, promotes participation in life.

**Credit:** Course may be taken for up to two credits

**Diploma Option:** For students taking the Florida Alternative Assessment

**Course Name:** Advanced Placement French Language (0701380)<br>**Prerequisite:** French 4<br>**Recommended:** To be taken as an independent study in a combined upper level class. Student must be able to work independently and have good behavior.<br>**Description:** This course improves the listening, reading and writing skills of the previous levels. Cultural awareness is enhanced and a brief study of history through literature is taught.<br>**Credit:** 1

**Course Name:** French 1 (0701320) Level 2<br>**Prerequisite:**<br>**Recommended:** Grades 10-12, for 9th grade students-minimum of "B" in 8th grade English<br>**Description:** This course provides an introduction to developing communication skills in the French language and gaining a cross-cultural understanding of customs, traditions and histories of the French-speaking peoples. The content includes an emphasis on pronunciation while focusing on understanding and comprehending reading, writing, listening and speaking.<br>**Credit:** 1

**Course Name:** French 2 (0701330) Level 2<br>**Prerequisite:** French 1<br>**Recommended:** If a native speaker should be placed in this level then he or she must have teacher recommendation and/or pass a test to show knowledge of the language and cultures.<br>**Description:** This course develops increased listening, reading, writing and speaking skills, as well as, cultural awareness. Reading and writing receive more emphasis, while oral communication remains the primary objective.<br>**Credit:** 1

**Course Name:** French 3 (0701340) Level 3<br>**Prerequisite:** French 2<br>**Recommended:**<br>**Description:** This course provides an extended learning of the French language while incorporating the material learned in French I and II. Listening and speaking skills are refined with more intense reading and writing in French and additional cultural studies.<br>**Credit:** 1

**Course Name:** French 4 (0701350) Level 3<br>**Prerequisite:** French 3<br>**Recommended:**<br>**Description:** This course reinforces the skills learned in French I, II and III. Listening, speaking, reading and writing skills, interwoven with cultural awareness are advanced.<br>**Credit:** 1

## SPANISH

**Course Name:** Advanced Placement Spanish Language (0708400)<br>**Prerequisite:** Spanish 4<br>**Recommended:**<br>**Description:** This course improves the listening, reading and writing skills of the previous courses. Cultural awareness is enhanced and a brief study of history through literature is taught.<br>**Credit:** 1

**Course Name:** Spanish 1 (0708340) Level 2<br>**Prerequisite:**<br>**Recommended:** Grades 10-12, for 9th grade students-minimum of "B" in 8th grade English<br>**Description:** This course provides an introduction to developing communication skills in the Spanish language and gaining a cross-cultural understanding of customs, traditions and histories of the Spanish-speaking peoples. The content includes an emphasis on pronunciation while focusing on understanding and comprehending reading, writing, listening and speaking.<br>**Credit:** 1
**Course Name:** Spanish 2 (0708350) Level 2  
**Prerequisite:** Spanish 1  
**Recommended:** If a native speaker should be placed in this level then he or she must have teacher approval and/or pass a test to show knowledge of the language and cultures.  
**Description:** This course develops increased listening, speaking, reading and writing skills, as well as, cultural awareness. Reading and writing receive more emphasis, while oral communication remains the primary objective.  
**Credit:** 1

**Course Name:** Spanish 3 (0708360) Level 3  
**Prerequisites:** Spanish 2  
**Recommended:**  
**Description:** This course provides an amplification of material learned in Spanish I and II. Listening and speaking skills are refined with more intense reading and writing in Spanish and additional cultural studies.  
**Credit:** 1

**Course Name:** Spanish 4 (0708370) Level 3  
**Prerequisite:** Spanish 3  
**Recommended:**  
**Description:** This course reinforces the skills learned in Spanish I, II and III. Listening, speaking, writing and reading skills, interwoven with cultural awareness are advanced.  
**Credit:** 1

**Course Name:** Spanish 5 (0708380)  
**Prerequisite:** Spanish 4  
**Recommended:**  
**Description:** This course expands the previous acquire communicative skills and cultural understanding.  
**Credit:** 1

**Course Name:** Humanities Survey (0900300)  
**Prerequisite:** None  
**Recommended:** Grades 9-12  
**Description:** The purpose of this course is to enable students to survey major creative expressions of the cultural heritage of selected civilizations through study of the arts and their connections to areas such as literature, history, philosophy, and religion. Emphasis will be the impact of cultural heritage on contemporary society and culture.  
**Credit:** .5

**Course Name:** Advanced Placement English Language and Composition (1001420) Level 3  
**Prerequisite:** English Honors curriculum or regular English curriculum with teacher recommendation and the completion of the summer reading assignment.  
**Recommended:** Grade 11  
**Description:** The Advanced Placement course in English Language and Composition engages students in careful reading and critical analysis of primary source texts to deepen their understanding of and appreciation for these materials. Students will study individual works from their historical and cultural context by focusing on rhetorical modes and devices, sentence and word schemes, tones and themes. Using these materials as guides, students learn to write effectively in a variety of modes and for a variety of purposes. Students will take the National Advanced Placement Exam in May. Scores of 3 or above are considered by most colleges and universities for awarding college credit.

| Course Name: Freshman Composition 1, College Dual Enrollment (ENC 1101) | ✗ | ✗ | ✗ |
| Prerequisite: Meets dual enrollment criteria. Students must have completed English 3 or AP English prior to enrolling in ENC1101 |  |
| Recommended: Grade 12 |  |
| Description: This course is the first composition class required of college freshmen. It provides practice in expository writing. The course focuses on development of clear thought process, organization for writing, and production of essays in the various modes. |  |
| Note: Gordon Rule Course- 6000 words |  |
| Credit: .5 *or College of Central Florida campus |  |

| Course Name: Freshman Composition 2, College Dual Enrollment (ENC 1102) | ✗ | ✗ | ✗ |
| Prerequisite: Completion of Freshman Composition 1 with a grade "C" or better |  |
| Recommended: Grade 12 |  |
| Description: This course includes readings from fiction, poetry, and drama, which provide the basis for discussion and expository writing assignments. |  |
| Note: Gordon Rule Course- 6000 words |  |
| Credit: .5 *or College of Central Florida campus |  |

| Course Name: English 1 (1001310) Level 2 | ✗ | ✗ | ✗ |
| Prerequisite: Statewide Assessment Reading Achievement Level 2 or higher |  |
| Recommended: Grade 9 |  |
| Description: This course provides instruction in reading and vocabulary necessary to understand printed materials. The composition instruction focuses on writing effective paragraphs and multi-paragraph papers emphasizing all stages of the writing process. Speech instruction includes formal and informal presentations. Literature study includes major literary genres. The study of language includes the elements of grammar, usage and mechanics. This course will also include introduction to the research process. |  |
| Credit: 1 |  |

| Course Name: English 2 (1001340) Level 2 | ✗ | ✗ | ✗ |
| Prerequisite: Statewide Assessment Reading Achievement Level 2 or higher |  |
| Recommended: Grade 12 |  |
| Description: This course teaches students the rudimentary skills of literary analysis in order to prepare them for upper level AP and college course work. |  |
| Credit: 1 |  |

| Course Name: English 2 Honors (1001350) Level 3 | ✗ | ✗ | ✗ |
| Prerequisite: English Honors 1, (English I and teacher recommendation) and Statewide Assessment Reading Achievement Level 3 or higher and the completion of the summer reading assignment. |  |
| Recommended: Grade 10 |  |
| Description: This course teaches students the rudimentary skills of literary analysis in order to prepare them for upper level AP and college course work. |  |
| Credit: 1 |  |

| Course Name: English 3 (1001370) Level 2 | ✗ | ✗ | ✗ |
| Prerequisite: English 2 |  |
| Recommended: Grade 11 |  |
| Description: This course includes a survey of American literature with assignments using all stages of the writing process. A research project that demonstrates understanding of the research process. Speech and vocabulary are integrated throughout. |  |
| Credit: 1 |  |

| Course Name: English 3 Honors (1001380) Level 3 | ✗ | ✗ | ✗ |
| Prerequisite: English 2 Honors and Teacher Recommendation and Statewide Assessment Reading Achievement Level 3 or Higher and the completion of the summer reading assignment |  |
| Recommended: Grade 11 |  |
| Description: The purpose of this course is to provide grade 11 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language in preparation for college and career readiness. Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning. |  |
| Credit: 1 |  |
**MATHEMATICS**

### Course Name: Advanced Placement Calculus AB (1202310) Level 3
**Prerequisite:** Pre-Calculus
**Recommended:** 3.0 GPA in previous math courses
**Description:** This course provides an opportunity for students to study elementary function and the general theory and techniques of calculus.
**Credit:** 1

### Course Name: Advanced Placement Calculus BC (1202320) Level 3
**Prerequisite:** AP Calculus AB
**Recommended:** 3.0 GPA in previous math courses
**Description:** This course provides additional opportunities for students to study function and general theory and techniques of calculus.
**Credit:** 1

---

### Course Name: Algebra 1A (1200370) Level 2
**Prerequisite:** Statewide Assessment Math Achievement Levels 1 & 2
**Recommended:** Grades 9-10
**Description:** This course provides development of algebraic concepts and processes that can be used to solve a variety of real world and mathematical problems. This is the first course of a two course sequence, which together cover the content of Algebra I. (Completion of Algebra IA and IB satisfies the Algebra I requirement for graduation.)
**Credit:** 1

### Course Name: Algebra 1-B (1200380) Level 2
**Prerequisite:** Algebra 1A
**Recommended:** Grades 9-10
**Description:** This course provides the continuation of the two course sequence which covers the content of Algebra I. Completion of Algebra IA and IB satisfies the Algebra I requirement for graduation.
**Credit:** 1

### Course Name: Algebra 1 (1200310) Level 2
**Prerequisite:** Statewide Assessment Math Achievement Level 3 or higher
**Recommended:** Grades 9-10
**Description:** This course provides the foundation for more advanced mathematics courses and develops problem-solving skills for operations, variables, formulas, integers, equations, inequalities and factoring.
**Credit:** 1

### Course Name: Algebra 2 (1200330) Level 2
**Prerequisite:** Geometry
**Recommended:** Grades 9-12
**Description:** This course continues the study of the structure of algebra and provides the foundation for applying these skills.
**Credit:** 1

### Course Name: Algebra 1 Honors (1200320)
**Prerequisite:**
**Recommended:**
**Description:** The purpose of this course is to develop the algebraic concepts and processes that can be used to solve a variety of real world and mathematical problems. (weighted)
**Credit:** 1

### Course Name: Algebra 2 Honors (1200340) Level 3
**Prerequisite:** Geometry or Geometry Honors, Statewide Assessment Math Achievement Level 4 or higher
**Recommended:**
**Description:** This course continues the study of algebra from a concept, rather than a computation viewpoint.
**Credit:** 1
Course: Financial Algebra (1200387) Level 2
Prerequisite:
Recommended: Algebra 1 and Geometry, Grades 11-12
Description: This course is targeted for students who need additional instruction in content to prepare them for success in upper-level mathematics. This course incorporates the Florida Standards for Mathematical Practices as well as the following Florida Standards for Mathematical Content: Algebra, Geometry, Number and Quantity, and Statistics, and the Florida Standards for High School Modeling. The course also includes Financial Literacy Standards found in Social Studies.
Credit: 1

Course Name: Geometry Honors (1206320) Level 3
Prerequisite: Algebra 1
Recommended: Statewide Assessment Math Achievement Level of 4
Description: This course develops the geometric relationships and deductive strategies to solve a variety of mathematical problems. This is concept rather than calculation based course.
Credit: 1

Course Name: Geometry (1206310) Level 2
Prerequisite: Algebra 1 or Algebra 1B or Informal Geometry
Recommended: 3.0 GPA or higher in Algebra course (s)
Description: This course develops the geometric deductive strategies and relationships, which can be used to solve a variety of real-world mathematical problems. This course will satisfy the state university requirement for admission to college.
Credit: 1

Course Name: Informal Geometry (1206300) Level 2
Prerequisite: Algebra 1 or Algebra 1A and IB
Recommended: This course provides the opportunity to use the basic geometric skills as tools in solving real-world problem. No formal proofs are required. This course will not satisfy the state university requirement for admission to college.
Credit: 1

Course Name: Intensive Math (1200400)
Prerequisite: Academic Improvement Plan or Individual Education Plan
Recommended: Grades 9-12
Description: Remediation Math course for students scoring below level 2 on Statewide Assessment
Credit: Multiple, Elective

Course Name: Liberal Arts Math 1 (1207300) Level 2
Prerequisite: Students who have passed their Algebra 1 course but have not passed the associated EOC
Recommended: This course strengthens Algebra 1 Skills
Credit: 1

Course Name: Liberal Arts Math 2 (1207310) Level 2
Prerequisite: Completion of Algebra 1 and Geometry
Recommended: This course strengthens mathematic skills used in Algebra and Geometry
Credit: 1

Course Name: Math for College Readiness (1200700)
Recommended: Students taking this course should have completed Algebra 1, Geometry and Algebra 2.
Description: The purpose of this course is to strengthen the skill level of high school seniors who have completed Algebra I, II, and Geometry and who wish to pursue credit generating mathematics courses at the college level.
Credit: 1

Course Name: Pre-Calculus, (1202340) Level 3
Prerequisite: Algebra 2
Recommended: This course emphasis is on the study of Analytic Geometry and the study of circular and trigonometric functions, and other skills necessary for the study of calculus.
Credit: 1

Course Name: AP Statistics (1210320)
Prerequisite: Required: Participant in Academy of Computer Science (See Page 6)
Description: Learn about the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Develop analytical and critical thinking skills as you learn to describe data patterns and departures from patterns, plan and conduct studies, use probability and simulation to explore random phenomena, estimate population parameters, test hypotheses, and make statistical inferences.
Credit: 1

Program Name: Probability & Statistics with Applications Honors (1210300) Level 3
Prerequisites:
Recommended: Grades 9-12
Description: Statistics and probability, conditional probability and the rules of probability.
Credit: 1

Course Name: AP Music Theory (1300330) Level 3
Prerequisite: Emphasis for this class will be on composition, analysis, and performance of student composition. Student must take the national Advanced Placement Exam.
Credit: 1

Course Name: Marching Band (1302355)
Prerequisite: Students must demonstrate basic skills on brass/percussion or woodwind instruments.
Recommended: Grades 9-12
Description: This course is a continuation of skills learned on the middle school level. The students will participate in various marching performances during the fall including football game half-time shows, and marching competitions on Saturdays. Band rehearsals will be held after school on an announced basis. Please see the band director for specific details.

<th>Recommended</th>
<th>Description</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Band 1 (1302300) Level 2</td>
<td>Students must demonstrate basic skills on brass, percussion, or woodwind instruments.</td>
<td>Grades 9-12</td>
<td>This course is a continuation of skills learned on the middle school level. The emphasis of this class is to help students reach a high performance level through fundamentals of individual technique (major scales, rhythms, etc.) as well as continuous ensemble rehearsal. Students will be involved in concert band and marching band after school rehearsals.</td>
<td>1</td>
</tr>
<tr>
<td>Band 2 (1302310) Level 2</td>
<td>Band 1</td>
<td>Grades 10-12</td>
<td>Band II is a continuation of Band I. The emphasis of this class will be to help students reach a high performance level through fundamentals of individual technique (major or minor scales, etc.) and continuous ensemble rehearsal. Students will be involved in concert band and marching band after school rehearsals.</td>
<td>1</td>
</tr>
<tr>
<td>Band 3 (1302320) Level 2</td>
<td>Band 2</td>
<td>Grades 11-12</td>
<td>Extended skill development and musicianship continue and include interpreting medium level band music, establishing appropriate tone production (standard brass, woodwind, percussion) and performance techniques. Students are required to attend all rehearsals and performances as part of the band.</td>
<td>1</td>
</tr>
<tr>
<td>Band 4 (1302330) Level 2</td>
<td>Band 3</td>
<td>Grades 12</td>
<td>This course develops independence in musicianship, performance techniques (standard brass, woodwind, percussion) and aesthetic awareness after rehearsing and performing varied band literature. Content includes interpreting medium to difficult music, developing independent musicianship, tone production and performance techniques, analyzing form, style and history in the performance preparation of varied band literature. Students are required to attend all rehearsals and performances as part of the band program.</td>
<td>1</td>
</tr>
<tr>
<td>Chorus 1 (1303300) Level 2</td>
<td></td>
<td>Grades 9-12</td>
<td>This course provides the students with the basic vocal techniques for correct singing. Vocal health will be emphasized. In addition, basic notation skills, sight singing, and vocabulary will be introduced.</td>
<td>1</td>
</tr>
<tr>
<td>Chorus 2 (1303310) Level 2</td>
<td></td>
<td>Grades 10-12</td>
<td>These courses are designed for the intermediate singer who wishes to pursue a more serious study in choral music. These students will learn and perform a variety of musical styles ranging from Madrigals to Broadway. They will continue their study of Sight-Singing and Music Theory, and be required to sight-sing independently. Students enrolled in these courses will be expected to commit to a large number of public performance appearances and several after school rehearsals. A total commitment is necessary for admission. A uniform rental fee will be required.</td>

**Credit:** 1 credit each course
Course Name: Instrumental Techniques 1 (1302420) Level 2
Instrumental Techniques 2 (1302430) Level 2
Instrumental Techniques 3 (1302440) Level 2
Instrumental Techniques 4 (1302450) Level 2
Prerequisite: Orchestra 1, 2, 3, 4; Previous high school band experience (LHS)
Recommended: 2nd Term only
Description: This class covers a wide variety of percussion instruments and techniques. In this class students will learn to play and understand percussion material in Jazz, Marching Band, and Concert Band. After school rehearsals and performances are part of this course.
Credit: 1 credit each course

Course Name: Music Ensemble 1 (1305400)
Music Ensemble 2 (1305410)
Music Ensemble 3 (1305420)
Prerequisite: Grades 9-12
Recommended: Grades 9-12
Description: Students with little or no experience in a vocal or instrumental ensemble develop basic musicmanship and ensemble performance skills through the study of basic, high-quality music in diverse styles. Student musicians focus on building foundational music techniques, music literacy, listening skills, and aesthetic awareness.
Credit: 1 credit each course

Course Name: Jazz Ensemble 1 (1302500) Level 2
Jazz Ensemble 2 (1302510) Level 2
Jazz Ensemble 3 (1302520) Level 2
Jazz Ensemble 4 (1302530) Level 2
Prerequisite: Audition, Previous band experience (LHS)
Recommended: Grades 9-12 (CHS 1st Term only) [LHS 2nd term only]
Description: Students will learn critical listening skills, vocal jazz technique, improvisation, advanced music theory, composition, and basic choreography.
Credit: 1 credit each course

Course Name: Keyboard (Piano) (1301360) Level 1
Keyboard 2 (1301370)
Prerequisite: Grades 9-12
Recommended: Grades 9-12
Description: This course provides students with the opportunity to develop piano keyboard performance proficiency. Emphasis will be placed on the development of skills in reading music notation, analysis of form, style and historical periods. Students will have opportunities to learn technical skills, i.e. proper hand positions, proper fingering, scales, triads and chords. Students will have opportunities to learn to sight-read levels of music depending on their own initiative. Student in-class performance serves as the final evaluation.
Credit: 1

Course Name: Music Technology and Sound Engineering 1 (1304300) Level 2
Prerequisite: Grades 9-12
Recommended: Grades 9-12
Description: Students explore the fundamental applications and tools of music technology and sound engineering. As they create and learn its terminology, students also learn the history and aesthetic development of technology used to capture, create, and distribute music. Public performances may serve as a resource for specific instructional goals. Students may be required to attend one or more performances outside the school day to support, extend, and assess learning in the classroom.
Credit: 1
PEER COUNSELING

| Course Name: Peer Counseling 1 (1400300) | Prerequisite: Guidance/Administration Screening and Selection | Recommended: Grades 10-12 | Description: This course is the introductory course for peer helpers. Peer helpers must be self-motivated to complete independent study in required texts while serving in classrooms. All peer helpers must be able to document excellent attendance and behavior and must maintain a 3.0 GPA. | Credit: .5 |

| Course Name: Peer Counseling 2 (1400310) | Prerequisite: Peer Counseling 1, excellent attendance and behavior, 3.0 GPA | Recommended: Grades 10-12 | Description: This course provides for application of skills from Peer Counseling 1. | Credit: .5 |

| Course Name: Peer Counseling 3 (1400320) | Prerequisite: Peer Counseling 2, excellent attendance and behavior, 3.0 GPA | Recommended: Grades 11-12 | Description: This course provides for further application of skills from Peer Counseling 1 and 2. | Credit: .5 |

| Course Name: Peer Counseling 4 (1400330) | Prerequisite: Peer Counseling 3, excellent attendance and behavior, 3.0 GPA | Recommended: Grades 11-12 | Description: This course provides for further application of skills from Peer Counseling 1, 2, and 3. | Credit: .5 |

RESEARCH AND CRITICAL THINKING

| Course Name: Advanced Placement Capstone Seminar (1700500) | Level 3 | Recommended: Grades 9-12 | Description: In AP Seminar, students investigate real-world issues from multiple perspectives, gathering and analyzing information from various sources in order to develop credible and valid evidenced-based arguments. | Credit: 1 |

| Course Name: Advanced Placement Capstone Research (1700510) | Level 3 | Recommended: Grades 9-12 | Description: In AP Research, students cultivate the skills and discipline necessary to conduct independent research in order to produce and defend a scholarly academic thesis. | Credit: 1 |

| Course Name: AVID 1 (1700390) | Prerequisite: Recommended: | Description: Advancement Via Individual Determination (AVID) is an elective class that provides support for students in the AVID program through curricular and mentoring activities. This course is designed to enable students to develop basic skills aligned with current curriculum. Application approval required. | Credit: 1 |

PHYSICAL EDUCATION

| Course Name: Aerobics 2 (1503410) | Level 2 | Recommended: Grades 9-12 | Description: This course provides listening, speaking, reading and writing instruction that allows English language learners to communicate for social and instructional purposes within the school setting. | Credit: .5 |

| Course Name: Paddleball/Raquetball/Handball (1502400) | Level 2 | Recommended: Grades 9-12 | Description: This course provides listening, speaking, reading and writing instruction that allows English language learners to communicate for social and instructional purposes within the school setting. | Credit: .5 |

| Course Name: Recreational Activities (1502470) | Level 2 | Recommended: Grades 9-12 | Description: This course provides listening, speaking, reading and writing instruction that allows English language learners to communicate for social and instructional purposes within the school setting. | Credit: .5 |

SYMBOLS/KEY

The following symbols are used throughout the course description section of the curriculum guide. Their meaning is indicated below:

#  Meets the practical arts requirement for graduation
✓  Meets the performing fine arts requirement for graduation
❈  Course is recognized by the State University System and the Florida Bright Futures Scholarship program as a core course
X  Course is available on that campus
+  Course is weighted in accordance with the Citrus County Schools Student Progression Plan.
■ Career Pathways
Course Name: Media Center Research 2 (1700310)
Prerequisite: Approval of Media Staff/Research 1
Recommended: Grades 10-12
Description: This course extends skills learned in Research I, emphasizing the students’ ability to refine and develop research utilizing resources, including both print and electronic, within the school media center. In addition, skills mastered allow the research student to assist patrons of the media facility.
Credit: .5

Course Name: Media Center Research 3 (1700320)
Prerequisite: Approval of Media Staff/Research 2
Recommended: Grades 11-12
Description: This course emphasizes data collection and the research process, continuing with skills learned in Research I and II. Students use community resources and the school media center to develop a research project. Skilled students become part of the media center’s support staff and assist others in data collection and research process.
Credit: .5

Course Name: Executive Intern (0500300)
Executive Intern 2 (0500310)
Executive Intern 3 (0500320)
Executive Intern 4 (0500330) (Health Academy)
Prerequisite: Grade 11-12 and 3.0 unweighted GPA (Application required at LHS)
Recommended: Development of skills in human relations, communication (written and oral) and employability.
Credit: 1 per course

Course Name: Inquiry Skills - Pre-1B (1700360)
Prerequisite: Acceptance into 1B Program LHS ONLY
Recommended: Grade 9
Description: The purpose of this course is to study the development of short and long-term educational goals, the nature of learning, the nature of study skills, strategies for specific study skills improvement and improvement in content areas, the problems associated with critical thinking and their solutions, problem solving, group-discussion guidelines, the interdisciplinary nature of knowledge, and research skills.
Credit: .5

Course Name: Media Center Research 1 (1700300)
Prerequisite: Approval of Media Staff
Recommended: Grades 10-12
Description: This course provides skills to produce a basic research product. The curriculum includes identifying research topics, obtaining information for research, and completing a final research project. The content emphasized learning the basics of a library system to independently obtain information needed for the research product.
Credit: .5

Course Name: ROTC MILITARY TRAINING
Program Name: Air Force Junior ROTC
Course Name: Aerospace Science 1 (1800300)
Prerequisite: Grades 9-12
Recommended: This course is designed to acquaint the student with the historical development of flight and the role of the military in history. The course covers the development of flight from ancient legends to the present. The cadets learn to wear the uniform, Air Force customs and courtesies, and basic drill skills.
Credit: 1

Program Name: Air Force Junior ROTC
Course Name: Aerospace Science 2 (1800310)
Prerequisite: Instructor Recommendation, Aerospace 1
Recommended: This course is designed to acquaint the student with the aerospace environment, the human requirements of flight, principles of aircraft flight, and principles of navigation. The leadership portion stresses oral and written communication skills, cadet Corps activities, and advanced drill.
Credit: 1

Program Name: Air Force Junior ROTC
Course Name: Aerospace Science 3 (1800320)
Prerequisite: Instructor Recommendation, Aerospace 1 and 2
Recommended: This course examines the Earth, moon, and the planets, the latest advances in space technology, and continuing challenges of space and manned space flight. Leadership training places an emphasis on managing others, stress, and finances; citizenship and ethics.
Credit: 1
Program Name: Air Force Junior ROTC  
Course Name: Aerospace Science 4 (AS-4) 1800330  
Prerequisite: Instructor Recommendation, Aerospace 1, 2, 3  
Recommended:  
Description: This course provides selected candidates with hands on management training as they manage the entire Corps for their fourth year. They also complete an advanced management course and an Air Force survival course. The fourth year brings all their instruction together to help "build better citizens for America."  
Credit: 1  

Program Name: Army Junior ROTC  
Course Name: Leadership Education and Training 1 (ROTC 1) (1801300)  
Leadership Skills Development (ROTC 1A) (2400300)  
Recommended: 9th-12th Grades  
Course Name: Leadership Education and Training 2 (ROTC 2) (1801310)  
Leadership Techniques (ROTC 2A) (2400310)  
Recommended: 10th-12th Grades  
Course Name: Leadership Education and Training 3 (ROTC 3) (1801320)  
Research V (ROTC 3A) (1700340)  
Recommended: 11th-12th Grades  
Course Name: Leadership Education and Training 4 (1801330)  
Research VI (ROTC 4A) (1700350)  
Recommended: 12th Grade  
Prerequisite: A minimum of 2.0 unweighted GPA is required for courses ending with "A".  
Description: These courses promote good citizenship and patriotism character building activities and a course of military instruction that will benefit the cadet, the community and our nation. JROTC is a course that will benefit the student in any chosen career be it military or civilian. Students are responsible for uniform maintenance. Students desiring to complete the basic core courses should enroll in the core courses (L.E.T. I-IV) spread over the four high school years. Those students who desire more than the four courses should enroll in the courses ending in "A" after completing the core course. The courses ending in "A" expand on the skills learned in the core course have heavy concentration on Drill & Ceremonies, Marksmanship & Safety, and Military staff Functions including Laboratory Practical Application.  
Credit: 1 credit each course  

Program Name: Naval Junior Reserve Officer Training Corps (NJROTC)  
Course Name: Naval Science 1A and 1B (1802300)  
Prerequisite:  
Recommended: Grades 9-12  
Description: This is the introductory course for the Naval Science (NJROTC) Program. The course is delivered in two parts. Students entering the program are required to sign up for both Naval Science 1A and 1B.  
Naval Science 1A is taken during either the 1st or 2nd quarter of the school year. 1A covers the history of the NJROTC program, close order military drill, military customs and courtesies, and uniforms. Successful completion of 1A assures permission to return in the spring to take Naval Science 1B.  
Naval Science 1B is taken during the either the 3rd or 4th quarter of the school year. Naval Science 1B continues the subjects introduced in 1A and, additionally, covers Citizenship, Marlinspike Seamanship and an introduction to Navigation. Participation in the several extra-curricular activities offered is encouraged during both active and inactive quarters throughout the school year.  
Credit: 5 credit each course (plus .5 credit in Physical Education, .5 credit in Personal Fitness)  

Program Name: Naval Junior Reserve Officer Training Corps (NJROTC)  
Course Name: Naval Science 2 (1802310)  
Prerequisite: Naval Science IA and IB  
Recommended: Grades 10-12  
Description: This is the follow-on course to Naval Science I. Seniors may not take this course except as a part of a curriculum that will include the completion of two full credits in Naval Science prior to graduation. Naval Science II is offered during both the fall and spring terms. Naval Science II covers Maritime History and Maritime Sciences (Oceanography, Meteorology, Astronomy and Physical Science)  
Credit: 1  

Program Name: Naval Junior Reserve Officer Training Corps (NJROTC)  
Course Name: Naval Science 3 (1802320)  
Prerequisite: Naval Science 1A and 1B  
Recommended: Grades 11-12  
Description: This is a follow-on course to Naval Science II. Seniors may not take this course except as part of a curriculum that will include the completion of two full credits in Naval Science prior to graduation. Naval Science III is offered during the fall term. Naval Science III covers Naval Knowledge. (Sea Power and National Strategy, Naval Operations and Support Functions, Military Law, and International Law and the Sea) and Naval Skills (Ship Construction and Damage Control, Marine navigation, Rules of the Road and the Maneuvering Board and Naval Weapons and Aircraft)  
Credit: 1  

Program Name: Naval Junior Reserve Officer Training Corps (NJROTC)  
Course Name: Naval Science 4 (1802330)  
Prerequisite: Naval Science 2 or 3  
Recommended: Grades 11-12  
Description: This is the "senior" leadership seminar for the Naval Science Program. Participation in this seminar is limited to cadets who, having completed the prerequisite course, have demonstrated writing ability and analytical skills necessary to do independent work. This course is offered only during the spring term.  
Credit: 1  

Course Name: Marine Corps: Leadership Education 1 (1803300)  
Level 2  
Prerequisite:  
Recommended: Grades 11-12  
Description: The purpose of this course is to enable students to develop a broad range of basic skills and knowledge, with opportunities for total development in leadership, this course further enables students to develop positive attitudes, good citizenship, and patriotism through character-building activities. The Marine Corps Junior Reserve Officer Training Corps (JROTC) provides military instruction in a learning environment useful to students in a future military or civilian career.  
Credit: 1  

Course Name: Marine Corps: Leadership Education 2 (1803310)  
Level 2  
Prerequisite: Marine Corps: Leadership Education 1  
Recommended: Grades 11-12  
Description: The purpose of this course is to enable students to develop a broad range of basic skills and knowledge, with opportunities for total development in leadership, this course further enables students to develop positive attitudes, good citizenship, and patriotism through character-building activities. The Marine Corps Junior Reserve Officer Training Corps (JROTC) provides military instruction in a learning environment useful to students in a future military or civilian career.  
Credit: 1
**Course Name:** Anatomy/Physiology (2000350) Level 2  
**Prerequisite:** Completion of Biology I and Physical Science  
**Recommended:** This course is a medically oriented program for those students interested in a career in biomedicine, emergency technology, or allied oriented medical field. Grades 11 & 12  
**Description:** This course involves high technology in the field, including but not limited to computer simulation and virtual dissection. It may be used in laboratory assignments.  
**Credit:** 11

---

**Course Name:** AP Biology (2000340)  
**Prerequisite:** Honors Physical Science; Honors Biology; Honors Chemistry (or Chemistry with teacher recommendation); Teacher Recommendation  
**Recommended:** Grade 12 (2nd Semester)  
**Description:** The purpose of this course is to enable students to develop knowledge of Natural history and Ecology by expanding and applying biological concepts introduced in 2000320 - Biology I Honors. The content shall include, but not be limited to, the implementation of scientific processes, the use of laboratory technologies and terminology, and an in-depth investigation of the properties of life through content specified by the Advanced Placement program. Laboratory experiences are part of the course. Students will take the Biology AP Exam.  
**Credit:** 1

---

**Course Name:** AP Chemistry (2000370) Level 3  
**Prerequisite:** Chemistry 2 and Algebra 2.  
**Recommended:** Minimum 3.0 GPA in Math and Science  
**Description:** This is an advanced Chemistry course intended for students who plan to major in science or engineering in college. This course will include equilibrium and non-equilibrium topics along with organic and inorganic molecular configurations. It will have comprehensive laboratory work. Students taking this course must be committed to working significant amounts of hours outside of the classroom. Students will take the national Advanced Placement Exam in May. Scores of 3-5 are considered passing by most colleges and universities for awarding college credits.  
**Credit:** 1

---

**Course Name:** Biology 1 (2000310) Level 2  
**Prerequisite:** Physical Science  
**Description:** This course includes exploratory experiences and activities in the fundamental concepts of life noting the interactions of science with technology and society. The content includes cell biology basic principles of genetics, biological changes through time, classification and taxonomy, microbiology, structure and function of plants, animals, and the human body, as well as, ecological relationships. Laboratory activities involve scientific methods, measurements, laboratory apparatus, and emphasizing lab safety.  
**Credit:** 1

---

**Course Name:** Biology 1 Honors (2000320) Level 3  
**Prerequisite:** Must have Level 3 Statewide Assessment Reading scores and also have Physical Science Honors or teacher recommendation.  
**Recommended:** None  
**Description:** The purpose of this course is to provide students with advanced exploratory experiences and activities in the fundamental concepts of life. The topics discussed are scientific method, scientific measurement. Laboratory safety and use of laboratory apparatus, biochemistry, cell biology, cell reproduction, genetics, biological changes through time, classification and taxonomy, microorganisms and disease, structure and function of plants, structure and function of animals, human biology, and ecological relationships.  
**Credit:** 1

---

**Course Name:** Biology 2 (2000330)  
**Prerequisite:** Honors Physical Science; Honors Biology; Honors Chemistry (or Chemistry with teacher recommendation); Teacher Recommendation.  
**Recommended:** Grade 12 (1st semester)  
**Description:** The purpose of this course is to enable students to develop knowledge of Cellular Biology by expanding and applying Biological concepts introduced in 2000320 - Biology I Honors. The content shall include, but not be limited to, the implementation of scientific processes, the use of laboratory technologies and terminology, and an in-depth investigation of the properties of life through content specified by the Advanced Placement Program. Laboratory experiences are part of the course.  
**Credit:** 1

---

**Course Name:** Chemistry 1 (2000340) Level 2  
**Prerequisite:** Algebra 1, Physical Science  
**Recommended:** Grades 10-12, 2.5 GPA in Math and Science, or its equivalent with grade “C” or better.  
**Description:** This course includes the study of the composition, properties and changes associated with matter, including the clarification and structure of matter, atomic theory, periodic table, bonding, chemical formulas, chemical reactions and balanced equations, behavior of gases, stoichiometry, and reaction rates. Laboratory activities involve scientific methods, measurement, laboratory apparatus, emphasizing lab safety and concepts studied.  
**Credit:** 1
### Course Name: Chemistry 1 Honors (2003350) Level 3
**Prerequisite:** Must have Biology Honors or Biology teacher recommendation. Algebra 1 or its equivalent with grade "C" or better (CHS only)
**Recommended:** Grades 10-12, 3.0 GPA in Math and Science
**Description:** This course provides a rigorous study of composition, properties and changes associated with matter for the college bound student. The application of mathematics to the concepts covered is an integral part of the course. The use of the scientific methods, measurements and safety procedures will be emphasized.
**Credit:** 1

### Course Name: Chemistry 2 (2003360) Level 3
**Prerequisite:** Chemistry 1 or Chemistry 1 Honors, Algebra 2, Physical Science
**Recommended:** Grade 12
**Description:** This course is a sequel to Chemistry I. It provides students who intend to major in science or engineering in college with a more in depth knowledge of the central science. Course content includes but not limited to thermal chemistry, acids and bases, reaction rates and equilibrium, redox reaction, and nuclear and organic chemistry. Curriculum may include: laboratory activities, computer simulation, general research, and class presentations. This course is highly recommended for students preparing for SAT II chemistry exam. Students pursuing a science career would benefit from this course.
**Credit:** 1

### Course Name: AP Computer Science Principles (0200335)
**Prerequisite:** Participant in Academy of Computer Science (See Page 6)
**Required:** Participant in Academy of Computer Science (See Page 6)
**Description:** Explore and investigate the interrelationships of the natural world, identify and analyze environmental problems, both natural and human-made, evaluate the relative risks associated with these problems, and examine alternative solutions for resolving and/or preventing them. Participate in hands-on, laboratory and field investigations to apply scientific principles, concepts, and methodologies in order to better understand our natural systems and to critically think about environmental issues and potential solutions.
**Credit:** 1

### Course Name: AP Computer Science A Innovation (0200325)
**Prerequisite:** AP Computer Science Principles
**Required:** Participant in Academy of Computer Science (See Page 6)
**Description:** Understand core aspects of computer science which you can use to create solutions that are understandable, adaptable, and when appropriate, reusable. The design and implementation of computer programs to solve problems involve skills that are fundamental to the study of computer science. This includes the development and analysis of algorithms and fundamental data structures, and the use of logic and formal methods.
**Credit:** 1

### Course Name: Earth/Space Science (2001310) Level 2
**Prerequisite:** Biology, Physical Science
**Recommended:** Grades 11-12
**Description:** This course includes exploration of the universe combined with in depth study of the earth, its composition, structure, and history, as well as, surface and subsurface activity. Laboratories and practical experience constitute an integral part of the course.
**Credit:** 1

### Course Name: Environmental Science (2001340) Level 2
**Prerequisite:** 8th Grade Science
**Recommended:** Grade 9
**Description:** This course includes the study of man’s interaction with the environment, ecosystems, emphasizing pollution, conservation, environmental planning and policy, public land usage, population dynamics, major forms of energy, and indoor and outdoor current environmental issues. Laboratory activities involve scientific methods, measurements, laboratory apparatus, and emphasizing lab safety.
**Credit:** 1

### Course Name: AP Environmental Science (2001380)
**Prerequisite:** Physical Science, Biology
**Required:** Participant in Academy of Computer Science (see Page 6)
**Description:** Explore and investigate the interrelationships of the natural world, identify and analyze environmental problems, both natural and human-made, evaluate the relative risks associated with these problems, and examine alternative solutions for resolving and/or preventing them. Participate in hands-on, laboratory and field investigations to apply scientific principles, concepts, and methodologies in order to better understand our natural systems and to critically think about environmental issues and potential solutions.
**Credit:** 1

### Course Name: Marine Science 1 Honors (2002510) Level 3
**Recommended:** Grades 11-12
**Description:** Content focus of this course is consistent with Marine Science 1 course, students will explore these concepts in greater depth. Academic pace and rigor will be greatly increased for Honors level course work.
**Credit:** 1

### Course Name: Physical Science (2003310) Level 2
**Prerequisite:** 8th grade science
**Required:**
**Description:** This is a lab-oriented course designed to teach students to apply basic process skills as tools for scientific investigation and problem solving. In addition, students will learn the basic physical concepts employed in chemistry and physics. These concepts include but are not limited to metric system, acids, bases and salts, organic and inorganic compounds, relationships between force, mass, and acceleration, electromagnetic, radioactive and nuclear energy, and science technology within societies.
**Credit:** 1
**SOCIAL STUDIES**

### Course Name: US Government (2106310) Level 2
**Prerequisite:** Grade 12
**Description:** This course provides opportunities to acquire an understanding of American government and political behavior. The content includes political traditions, the Bill of Rights and the Constitution, local, state, and national government roles, and the rights and responsibilities of American citizens.
**Credit:** 1

### Course Name: US Government Honors

Scores of 3 or above are considered by most colleges and universities for awarding college credit.
**Credit:** 1
### Course Name: Advanced Placement United States Government and Politics (2106420) Level 3 course  
**Prerequisite:** World and American History  
**Recommended:** American History Honors or AP American History with an overall 3.0 or higher in Social Studies courses.  
**Description:** This course provides students with a critical perspective of politics and government in the United States. It will include the general concepts used to interpret American politics and analyze specific case studies. Topics will also include the various institutions, groups, beliefs and ideas that constitute the American political perspective. Students will take the national Advanced Placement exam in May. Scores of 3 or above are considered by most colleges and universities for awarding college credit.  
**Credit:** .5 Will meet graduation requirement for American Government

### Course Name: Advanced Placement European History (2109380) Level 3  
**Prerequisite:** World or American History  
**Recommended:** Honors World History or AP World History OR Honors American History or AP American History with an overall 3.0 or higher in Social Study courses.  
**Description:** This course provides opportunities for students to examine the development of Europe to gain a better understanding of its future relation within the global community. Students will be asked to use knowledge pertaining to history, geography, economics, political processes, religion, ethics, diverse cultures and humanities to solve problems in academic, civic, social and employment settings. Students will take the national Advanced Placement Exam in May. Scores of 3 or above are considered by most colleges and universities for awarding college credit.  
**Credit:** 1

### Course Name: Advanced Placement Microeconomics (2102360) Level 3  
**Prerequisite:** World and American History  
**Recommended:** American History Honors or AP American History with an overall 3.0 or higher in Social Studies courses.  
**Description:** This course provides opportunities for students to acquire decision-making tools and knowledge that will allow them to understand the organization of society in satisfying limited resources with unlimited wants. Topics will include basic fundamental economic concepts such as scarcity, exchange, and money. In addition, students will be asked to closely examine microeconomic concepts such as supply and demand, competition, and the role of government. Students will take the national Advanced Placement Exam in May. Scores of 3 or above are considered by most colleges and universities for awarding college credit.  
**Credit:** .5 Will meet graduation requirement for Economics

### Course Name: Advanced Placement Macroeconomics (2102360)  
**Prerequisite:** World and American History  
**Recommended:** American History Honors or AP American History with an overall 3.0 or higher in Social Studies courses.  
**Description:** This course provides opportunities for students to acquire decision-making tools and knowledge that will allow them to understand the organization of society in satisfying limited resources with unlimited wants. Topics will include basic fundamental economic concepts such as scarcity, exchange, and money. In addition, students will be asked to closely examine macroeconomic concepts such as supply and demand, competition, and the role of government. Students will take the national Advanced Placement Exam in May. Scores of 3 or above are considered by most colleges and universities for awarding college credit.  
**Credit:** .5 Will meet graduation requirement for Economics

### Course Name: Advanced Placement Psychology (2107350)  
**Prerequisite:** World or American History  
**Recommended:** American History Honors or AP American History with an overall 3.0 or higher in Social Studies courses.  
**Description:** Through the study of psychology, students acquire an understanding of and an appreciation for human behavior, behavioral interaction, and the progressive development of individuals. This will better prepare them to understand their own behavior and the behavior of others. Scores of 3 or above are considered by most colleges and universities for awarding college credit.  
**Credit:** 1

### Course Name: Economics with Financial Literacy (2102335) Level 2  
**Prerequisite:** Grade 12  
**Recommended:** American History Honors or American History and teacher recommendation  
**Description:** This course provides opportunities for students to develop their understanding of how society organizes its limited resources to satisfy unlimited wants, different types of economics systems, and the American Mixed Market System. Major emphasis will be given to examining and analyzing the implications of market solutions and public policy decisions as they relate to economic problems.  
**Credit:** .5

### Course Name: Economics with Financial Literacy Honors (2102345) Level 3  
**Prerequisite:** American History Honors or American History and teacher recommendation  
**Recommended:** Grade 12  
**Description:** This course provides opportunities for students to develop their understanding of how society organizes its limited resources to satisfy unlimited wants, different types of economics systems, and the American Mixed Market System. Major emphasis will be given to examining and analyzing the implications of market solutions and public policy decisions as they relate to economic problems.  
**Credit:** 1

### Course Name: Law Studies (2106350) Level 2  
**Prerequisite:**  
**Recommended:** Grades 10-12  
**Description:** This course provides firsthand opportunities to study and understand the criminal justice system. It includes the study of juvenile law, rights of the accused, and a critical analysis of courtroom procedures.  
**Credit:** .5

### Course Name: Psychology I (2107300) Level 2  
**Prerequisite:**  
**Recommended:** Grades 11-12  
**Description:** This course provides opportunities to acquire an understanding of human behavior, behavioral interaction, and the progressive development of individuals.  
**Credit:** .5

### Course Name: Philosophy (2105340) Level 2  
**Prerequisite:** 3.0 GPA in social studies  
**Recommended:** Grades 11-12  
**Description:** This course provides students with an opportunity to acquire an introductory understanding of philosophy. Fundamental questions will be addressed concerning the meaning of life and religious and scientific thought. Students will be introduced to the definition of philosophy, classical and modern philosophies, and philosophers. This course requires a large amount of reading, writing and analyzing materials presented.  
**Credit:** .5

Specialty Education Environments

The Renaissance Center

The Renaissance Center provides a structured educational environment for students who have not been successful in the traditional school setting due to behavioral/motivational factors. This alternative school serves middle and high school students and provides opportunities for student participation in individual and group counseling related to their behavioral/social-emotional issues. The Renaissance Center also utilizes a school wide behavioral modification system to address problematic patterns and monitor student progress. The curriculum follows the Florida Standards. We strive to maintain academic programs that will ensure a smooth student transition to their zoned school or continued progress for students who desire to remain at the Renaissance Center.

CREST

CREST School is a special day school for special education students with severe disabilities. CREST is located in the Lecanto School Complex. It serves students Pre-K through 12th grade throughout all of Citrus County. Currently there are 150 students attending CREST.

Programs are designed to meet the student’s educational needs based on an individual educational plan (IEP). The curriculum focuses on life skills and developing independence.
Post Secondary Opportunities

College of Central Florida
College of Central Florida students with strong academic record and high college entrance exams (ACT/SAT) may qualify for the dual enrollment. See Page 5 in this Guide for Dual Enrollment criteria.

Withlacoochee Technical College
Withlacoochee Technical College is a post-secondary facility accredited by the Council on Occupational Education and AdvancED that accepts dual-enrolled high school students into appropriate programs if space is available. High School students may take classes at their home school for half of the day and attend WTC for the other half. WTC provides the high school student the opportunity to obtain valuable skills and knowledge for a career in a technical field without having to pay for tuition or books.

ED2GO
Withlacoochee Technical College offers more than 300 non-credit online Ed2Go courses that start as low as $95. These online courses are informative, fun, convenient, and highly interactive. Our instructors are famous for their ability to create warm and supportive communities of learners. All courses run for six weeks (with a two-week grace period at the end). Courses are project-oriented and include lessons, quizzes, hands-on assignments, discussion areas, supplementary links, and more. You can complete any course entirely from your home or office any time of the day or night. For more information visit our Online Instruction Center today at www.ed2go.com/wti or phone (352) 726-2430 x4360.
