

BlueScript Pharmacy Benefits – 20%/30%/40% after \$250 Brand Deductible

For BlueOptions Plan 03359– Open Formulary (Home Delivery Available)

The BlueOptions® health benefit plan your employer is offering you is paired with our BlueScript® Pharmacy Program. With a large network of Participating Pharmacies statewide and nationally, you can obtain prescription drugs at a location convenient to you.

You may also be able to receive more savings on prescription drugs by purchasing your drugs through the home delivery program.

See below for your specific plan details.

Pharmacy Deductible (DED)\$250

Drug Tier	In-Network Retail (One-Month Supply)	In-Network Home Delivery (Three-Month Supply)	Out-of-Network
Preferred Generic Prescription Drugs	20%	\$20	50%
Preferred Brand Name Prescription Drugs	DED + 30%	\$50	DED + 50%
Non-Preferred Prescription Drugs	DED + 40%	\$80	DED + 50%

Specialty drugs are not available through home delivery. Deductible is waived for home delivery.

Advantages of our Pharmacy Program

With our BlueScript Pharmacy Program, you'll receive coverage for Preferred Generic, Preferred Brand Name, and Non-Preferred Prescription Drugs, as well as self-administered injectables and specialty medications. You have easy access to Participating Pharmacies throughout Florida and to National Network Pharmacies with over 60,000 locations.

Save When Purchasing Your Prescription Drugs

You can reduce your out-of-pocket costs by purchasing Covered Prescription Drugs listed on our Preferred Medication List. These prescription drugs should cost you less than prescription drugs not on the list.

Generic Prescription Drugs

You pay a lower cost for Generic Prescription Drugs that appear on the Preferred Medication List. If you request a Brand Name Prescription Drug when a Generic is available, you will be responsible for:

1. The copayment applicable to Brand Name Prescription Drugs; and
2. The difference in cost between the Generic Prescription Drug and the Brand Name Prescription Drug, as indicated on the BlueOptions pharmacy Program Schedule of Benefits.

More Convenient Than Ever

Take your prescriptions to a participating pharmacy to have them filled. Or, if you are taking a prescription medication on an ongoing basis, you have a couple of convenient options:

1. Your doctor can prescribe a three-month supply and you can have it filled at select participating retail pharmacies. A three-month out-of-pocket cost (copay, coinsurance, and/or deductible) applies.
2. For additional savings, fill prescriptions via our home delivery program. This program allows covered members taking prescription drugs to receive up to a three-month supply for one Home Delivery Copayment, after Pharmacy Deductible, if applicable. Prescription drugs ordered through this program are provided by Amazon Pharmacy.

Vaccines at the Pharmacy

Certain vaccines which are covered under your Wellness Benefits can be administered by Pharmacists that are certified.

Contraceptive Coverage

Generic oral contraceptives and diaphragms are covered under your pharmacy benefit and are available at no cost to you. These contraceptives must be prescribed and obtained from a participating pharmacy.

Diabetic Supplies

Diabetic supplies such as blood glucose testing strips and tablets, lancets, glucometers, and acetone test tablets and/or syringes and needles are covered under your pharmacy benefit. Diabetic supplies require a prescription and can be obtained from a participating pharmacy.

Medication Guide

The Preferred Medication List, which is part of the Medication Guide, is available online at floridablue.com. Changes in the formulary can occur over time and the most up-to-date listing can always be found by viewing the Medication Guide online or by calling the customer service number listed on your member ID card. For the hearing impaired, call Florida TTY Relay Services 711. The Medication Guide also identifies specialty drugs, and drugs requiring prior authorization. When reviewing the Preferred Medication List with your doctor, ask your provider to consider a prescription drug from the Preferred Medication List, particularly a Preferred Generic Prescription Drug.

Pharmacy Options Affect Your Out-of-Pocket

There are two different types of pharmacies for you to be aware of as you decide where to get your prescriptions filled—retail pharmacies and specialty pharmacies. To save the most money, before you get a prescription filled you should confirm which pharmacy is considered 'in-network' for that particular medication.

- **Retail Pharmacy Network**

Non-specialty 'Generic' medications and 'Brand Name' medications listed on the Medication Guide can be filled at these pharmacies at a lower cost to you than other pharmacies in your area. If you go to a non-participating pharmacy, your prescription will cost you more.

- **Specialty Pharmacy Network**

We have identified certain drugs as 'specialty drugs' due to requirements such as special handling, storage, training, distribution, and management of the therapy. These drugs are listed as a 'Specialty Drug' in the Medication Guide. To be covered under your pharmacy program at the In-Network cost share, they must be purchased at a participating Specialty Pharmacy. These pharmacies are different than the retail pharmacies and are identified in both the Provider Directory and the Medication Guide. Using an in-network Specialty Pharmacy to provide these Specialty Drugs lowers the amount you pay for these medications.

- **Non-Participating Pharmacy**

Choosing a non-participating pharmacy will cost you more money. You may have to pay the full cost of the medication and then file a claim to be reimbursed. Our payment will be based on our Non-Participating Pharmacy Allowance minus your deductible and/or coinsurance. You will be responsible for the deductible and/or coinsurance and the difference between our allowance and the cost of the medication.

- **The National Pharmacy Network**

The National Pharmacy Network includes more than 50,000 chain and Independent Pharmacies across the United States. The National Network Pharmacies are available to our members traveling or residing outside of Florida. Simply present your member ID card at time of purchase.

Utilization Management/Responsible Rx Programs

Prior Coverage Authorization

Drugs selected for Prior Coverage Authorization (PA) may require that specific clinical criteria be met before the drugs will be covered under your pharmacy benefit. The list of drugs requiring Prior Authorization is located in the Medication Guide and are designated with a "PA" following the product name. Florida Blue reserves the right to change the drugs that require PA at any time and for any reason.

Responsible Quantity

Drugs included in this program allow a maximum quantity per time period. Quantity limits are typically developed based upon FDA-approved drug labeling and nationally recognized therapeutic clinical guidelines. The list of drugs that have quantity limits are designated in the Formulary List with a "QL" following the product name. Florida Blue reserves the right to change the Drugs and the quantity limits subject to the Responsible Quantity Program at any time and for any reason. In cases where a larger quantity of a Responsible Quantity Drug is medically required, your doctor or health care provider can request an override. Responsible Quantity override forms are available at floridablue.com.

Responsible Steps

Drugs included in this program require that you try another designated prerequisite drug first before a drug listed in the Responsible Steps Medication Chart will be covered. If due to medical reasons you cannot use the prerequisite drug and require the Responsible Steps Medication, your doctor or health care provider may request prior authorization for an override. If the override request is approved, coverage will be provided for the Responsible Steps Medication. These medications are designated in the Formulary List with "RS" following the product name. Medications included in the Responsible Steps Program are listed in the Medication Guide. Florida Blue reserves the right to change the drugs subject to the Responsible Steps Program at any time and for any reason.

Drugs that are Not Covered

Your Pharmacy benefit may not cover select medications. You will be responsible for paying the full cost of such medications. The Medication Guide contains a list of non-covered drugs. Some reasons a medication may not be covered are:

- The drug has been shown to have excessive adverse effects and/or safer alternatives are available.
- The drug has a preferred formulary alternative.

For drugs not covered you have access to a prescription savings discount card. With the discount card program, you will receive special discounted pricing at select participating pharmacies. This card provides savings for you or any of your family members on medications that are not covered under your BlueScript pharmacy benefit. The discount program is not an insurance product or part of your health benefit plan. For more information, log in to your account at floridablue.com. Go to My Plan and then Pharmacy to find the link to Prescription Drug Savings Card. You can also call the customer service number on the back of the member ID card.

Health insurance is offered by Blue Cross and Blue Shield of Florida, Inc., DBA Florida Blue. Florida Blue is an Independent Licensee of the Blue Cross and Blue Shield Association. Florida Blue does not discriminate on the basis of race, color, national origin, disability, age, sex, gender identity, sexual orientation, or health status in the administration of the plan, including enrollment and benefit determinations.
